## SKATS Boundary and City Limits

## Introduction

This document contains the FY 2019-2020 Unified Planning Work Program (UPWP) for metropolitan transportation planning activities for the Salem-Keizer Transportation Management Area (Map 1) coordinated and provided by the Salem-Keizer Area Transportation Study (SKATS). SKATS staff are employed by the Mid-Willamette Valley Council of Governments (MWVCOG).

All the products and activities programmed in the SKATS UPWP derive directly from products and processes prescribed for Metropolitan Planning Organizations (MPOs) by federal and state transportation and air quality statutes and regulations. Federal statutes and regulations include:

- Title 23, United States Code as amended (2016) by Fixing America's Surface Transportation (FAST);
- Joint FHWA/FTA Metropolitan and Statewide Planning Regulations (23 CFR Part 450 and 500, 49 CFR Part 613);
- EPA Transportation Plan Conformity Rule (40 CFR Parts 51 and 53); and
- Title VI of the 1964 Civil Rights Act; the President's Executive Order on Environmental Justice; and related statutes, executive orders, and federal regulations.

Oregon state regulations require coordination between the MPO and state agencies to comply with state air quality and transportation rules and regulations such as the Oregon Transportation Conformity Rule and the Oregon Transportation Planning Rule (TPR).

The purpose of the work program is to identify the major transportation planning activities to be carried out with federal and state funds within the SKATS Transportation Management Area (TMA) area during the program year by the Oregon Department of Transportation (ODOT), the Mid-Willamette Valley Council of Governments (MWVCOG) staff acting for SKATS, the Salem Area Mass Transit District (SAMTD), other state agency personnel and local jurisdictional staffs (particularly on transportation planning work using federal funds (such as Transportation and Growth Management (TGM) grants (through ODOT) or Surface Transportation Block Grant Program (STBGP) funds and affecting the regional transportation system).

This UPWP continues the approach between state, regional, and local transportation planning following the "3-C's" of a "cooperative, continuing, and comprehensive" planning process. By working together, the jurisdictions and agencies in the region aim to share in the responsibility of improving the transportation system; carryout local, regional, and statewide transportation plans; minimize costs associated with regional transportation planning; address the significant transportation problems and "outstanding issues" identified in the adopted Regional Transportation Systems Plan (RTSP) for the Salem-Keizer Urban Area; and to comply with federal, state, and local regulations and policies.

## Designation of the SKATS MPO and SKATS Committees

According to the Cooperative Agreement approved on May 8, 1987 by Oregon Governor Neil Goldschmidt, the SKATS Policy Committee is the designated Metropolitan Planning Organization (MPO) for the Salem-Keizer area, responsible for planning and air quality requirements. Based on the Amendment No. 1 to the Cooperative Agreement, the SKATS Policy Committee is composed of elected officials from the cities of Salem, Keizer, and Turner; Marion and Polk Counties; the Salem Area Mass Transit District (SAMTD); the Salem-Keizer School District; as well as a representative from the Oregon Department of Transportation (ODOT). Details on the structure and voting of the SKATS Policy Committee are contained in the cooperative agreement (*See Appendix A.*). Staff employed by the Mid-Willamette Valley Council of Governments – under direction by the SKATS Policy Committee - perform

the staff support for the SKATS program.

SKATS coordinates with ODOT and the local jurisdictions on studies and other transportation planning work tasks described in the UPWP. A Technical Advisory Committee (TAC) composed of staff from the jurisdictions included in the SKATS area, as well as representatives from Department of Land Conservation and Development (DLCD), Department of Environmental Quality (DEQ), and the Federal Highway Administration (FHWA) provides a forum for discussing the technical aspects of projects and programs and sharing insight into local transportation needs.

## Planning Process Responsibilities

The SKATS Policy Committee, through an intergovernmental Cooperative Agreement (*Appendix A*), is responsible for ". . . transportation plans, transportation improvement programs, and to take other actions necessary to carry out the transportation planning process."

The transportation planning process is dependent on continuous cooperation and the mutual support of all the SKATS participants. Therefore, while SKATS has the responsibility to carry out the metropolitan transportation planning process activities according to the most current federal regulations, SKATS depends on support and assistance from ODOT, SAMTD, and the local jurisdictions to develop the regional 20+ year transportation plan and regional Transportation Improvement Program (TIP). In addition, SKATS' level of responsibility is related to the "transportation systems of regional significance" within the Salem-Keizer Urban Area including corridor and subarea studies. If needed, SKATS will participate in general corridor studies that extend beyond the SKATS study area boundaries; but SKATS staff would not necessarily take the lead role in those efforts. SKATS is also responsible for developing and maintaining the travel demand forecasting model for the region but depends on ODOT and the local jurisdictions for collaboration (e.g., review of the land use inputs into the travel model).

As stated above, SKATS works cooperatively with its member jurisdictions and agencies on a variety of planning studies that impact the regional system. This includes the regional planning studies in section I., Corridor and Area Planning studies in section II., interagency coordination in section V., and transit planning in section VIII. This UPWP provides a description of SKATS participation in these planning studies and activities as best known at the time of this UPWP development. However, as these studies get underway, the roles and tasks of SKATS and its partner jurisdictions may change, as needed, by mutual consent of SKATS and the cooperating agency/jurisdiction to complete the planning work. SKATS may also enter into agreements (formal and informal) for varying degrees of cooperation and support with other agencies such as ODOT or the other Oregon MPOs, which mutually benefit both SKATS and our partners.

In April 2008, SKATS, ODOT, and the SAMTD approved an intergovernmental agreement (No. 24,736) identifying the roles and responsibilities for transportation planning in the MPO area. (*See Appendix E.*) That agreement is being revised for 2019 to take into account changes in the federal FAST Act. How the three agencies will coordinate on major transportation planning studies in the SKATS area is documented in this agreement.

## Organization of the UPWP Document and Agency Staffing

The UPWP is organized into eight sub-programs. These are:

- I. Regional Plans and Planning Activities
- II. Corridor and Sub-Area Plans and Studies

- III. Regional Project Programming
- IV. Regional Data and Modeling Program
- V. Interagency Coordination
- VI. Program Management and Coordination
- VII. Metropolitan Transit Planning
- VIII. ODOT Planning

Each of these sub-programs is described in more detail in the following sections of the UPWP. The organization of each sub-program section includes a budget table and program description; activities and products are listed either separately or together, depending on the nature of those activities/products. Pages 53-54 of this document contains two funding tables: the first shows the source of funds (Federal, State match, Local match) and federal funds type (PL, STBGP-U, 5303). The second table shows the allocation of funds to each of the eight sub-programs by fund type (PL, STBGP-U, and 5303 (federal funds plus match). The appendices include the MPO Cooperative Agreement; the intergovernmental agreement between the MPO, ODOT, and Salem Area Mass Transit District (SAMTD); a map of the SKATS boundaries; and FHWA's and FTA's joint certification of SKATS planning process.

SKATS staff are employees of the Mid-Willamette Valley Council of Governments located in downtown Salem Oregon. SKATS staff are primarily responsible for the first six programs described in this UPWP. SAMTD staff are primarily responsible for transit planning in section VII of the UPWP with oversight by SKATS staff for the Federal Transit Administration (FTA) Section 5303 funds used. An ODOT Region 2 planner provides coordination tasks between the MPO and ODOT.

## **Funding the Program**

The work described in this document is funded via a mixture of federal, state, and local funds and is illustrated in **Table 4 (pg.53)**. SKATS receives an allocation of federal planning (PL) funds, as per the funding agreement between ODOT and the Oregon MPOs. Because the amount of annual federal PL funds (\$479,943 plus a match of \$54,817) is inadequate to fund the necessary planning activities, surface transportation block grant program urban funds (STBGP-U - \$422,000 plus a match of \$48,300) identified in the SKATS TIP are also used for the activities described in this UPWP. There are also STBGP-U funds (\$438,402 plus a match of \$50,177) unspent from previous years that are used in this UPWP. Both PL and STBGP-U funds require a match of non-federal funds from local or state sources (10.27 percent of the total must be from non-federal funds). SKATS also receives about \$150,000 in Section 5303 funds for transit planning related work with the majority passed through to SAMTD to do regional and project-related transit planning. SAMTD provides the local match of 10.27 percent for the 5303 funds. The amount of PL, STBGP-U, and 5303 funds estimated for the eight program and sub-program tasks are illustrated in **Table 5 (pg. 54)**.

Some of the planning studies described in section II (Corridor and Area Plans and Studies) of this UPWP are funded with using STBGP-U funds from the SKATS TIP, or TGM grants, or ODOT's state/federal funds. SKATS staff uses STBGP-U funds from the UPWP to support these studies.

Lastly, the state or the local jurisdictions use their own state/local funds on studies that have regional transportation significance or are located on a regionally significant road. SKATS is often asked to assist or participate to a limited degree in these studies (e.g., reviewing and commenting on draft documents, providing transportation data or model forecasts, etc.). SKATS' assistance on these state- and locally-funded studies is covered as part of section V's interagency coordination budget.

The dollar amount listed in *Table 1* identifies the amount and source of funds that will be used by the MPO (SKATS), ODOT, and SAMTD in accomplishing these tasks. In addition, the estimate for each task is shown at the beginning of the eight sections of this document. The allocation of funds among tasks is approximate and will be reassigned during the timeframe of the UPWP, as conditions dictate.

## Summary of Major Planning Activities and Products in FY 2019-2020

Many of the activities listed in this year's UPWP are part of the continuing and recurring nature of metropolitan transportation planning. These activities include Policy Committee and TAC meetings, interagency and jurisdictional meetings, TIP development and monitoring (adjustments, coordination with ODOT's STIP, and project tracking), data collection, model refinements, and other activities that are on a regular cycle (producing draft and final RTSPs and TIPs on 4-year and 3-year cycles, respectively). See the end of this summary for a list of these activities. Major regional studies often stretch over several years with the UPWP providing background information on previous work and the work scheduled for 2019-2020. The lead agency is listed, and expected deliverables and their dates are provided.

The major planning activities and products in the upcoming year are highlighted in the summary below. Details of this work are provided in later sections of this UPWP.

- In 2018, SKATS integrated federally-required **Performance-Based Planning** in the updates of the SKATS RTSP and SKATS TIP. For the draft RTSP update, this included changes to the goals/objectives and the project selection process. Updates of the SKATS TIP included a chapter on the performance targets. Staff will continue to update and refine its use of performance-based planning in 2019-2020 in future updates to the RTSP and TIP, as well as other documents required of SKATS and our partner agencies.
- The *Regional Transportation Systems Plan (RTSP)* is updated on a four-year cycle, and the update is scheduled to be adopted **on May 28, 2019**. Staff will also continue to gather and track the data used as indicators and performance measures for the goals and objectives of the adopted RTSP, for use in subsequent planning updates and reporting. (More discussion is presented in Section I.)
- The *SKATS FY 2018-FY 2023 Transportation Improvement Program (TIP)* was adopted on April 25, 2017, and normally goes through a complete update every 2-3 years. Amendments to the adopted TIP occur, and funding or projects evolve. Work on the SKATS FY 2021-FY 2026 TIP started in January 2019 beginning with financial projections and will continue through most of 2019 with the project application and selection process. It will go out for public review in February 2020 and is scheduled for adoption in May 2020. This TIP will incorporate **FHWA/FTA performance measure requirements** into the project selection process and how implementation of the TIP is anticipated toward making progress toward achievement of targets. Staff will also coordinate with ODOT on its FY 2021-FY 2024 STIP, which is scheduled for adoption June 2020. (Section III. describes the ongoing monitoring and amendment of the TIP and STIP, when needed.)
- Staff began collecting crash data in 2009 and had posted crash data on the SKATS website, as well as coordinated with city of Salem on their Pedestrian Safety Plan and the Safer Crossing Program. ODOT updated their *Transportation Safety Action Plan (TSAP)* in 2016 and set performance targets that SKATS is supporting. Building on the work of the TSAP, SKATS will continue work with the local jurisdictions on the need for coordinated efforts to improve safety in the region. Prior UPWPs included discussions about developing a Regional Safety Plan, but it didn't get off the ground; however, future discussion will include the potential of starting a Crash Fatality Review Team or a Safe Communities Program.

- The SKATS Title VI plan was last adopted in 2010. Staff will review the current plan and determine if an update is appropriate to incorporate changes from the recently adopted Public Participation Plan (2017). Note: the update will likely be incorporated into a Title VI plan for all programs at the MWVCOG.
- The final planning and technical work on the *Salem River Crossing Study EIS (Environmental Impact Statement)* should be concluded before September 30, 2019, with the Final EIS submitted to FHWA & FTA, with a request for a record of decision (ROD) for the No-Build Alternative. The lead agencies for the EIS are ODOT and city of Salem. SKATS staff is on the project management team (PMT) and have provided travel model forecasts and public involvement services during the development of the draft and Final EIS. The city of Salem's decision to amend the urban growth boundary, amend the city's transportation system plan, and adopt an exception to Statewide Planning Goal 15 was appealed. In August of 2017, the Oregon Land Use Board of Appeals (LUBA) agreed with 3 of the 16 assignments of error and remanded the city's decision. The Salem city council held a work session in January 2019 and a public hearing in February 2019, both heavily attended by members of the public: the council decided in February 2019 not to address the LUBA remand and to support the No-Build alternative. ODOT is developing a Final EIS for the No-Build Alternative.
- SKATS will assist and/or coordinate on **corridor and sub-area studies** that affect the regional transportation system as listed in Section II. This includes the *Keizer Growth Transportation Impact Study* and the *Cordon Road Corridor Study*, both of which are funded with STBGP-U funds from the SKATS TIP. Keizer also received a state-funded Transportation Growth Management (TGM) grant for a *Keizer Revitalization Plan which started in January 2018*, and SKATS staff will be involved with running the 2040 travel model for up to three sets of future land use scenarios.
- For purposes of completeness and communication, we note that several regionally significant planning studies were identified as needed in past UPWPs; however, they will be delayed to 2019-2020 or later:
  - ODOT is not expected to do additional planning work on the *OR22/OR 51 Interchange Development*. There was some planning work done by ODOT during the 2015-2016 UPWP to decide between several options of backage road sections (included in the Expressway Plan) to construct in the near future with \$8 million that is available in the STIP. Progress on that work has been put on hold while land movement activity in the area is being monitored. ODOT Region 2 is starting an update of the western portion of the OR22 EMP from Greenwood to Doaks Ferry that will also involve a more detailed look at the OR22/51 interchange in lieu of expanded backage roads. SKATS will keep its TAC and Policy Committee updated as ODOT determines how to proceed.
  - Planning work for the eastern half of the *OR 22W Expressway Management Plan (Doaks Ferry Road to the Willamette River bridges)* is delayed until 2019 or later.
  - ODOT is scheduled to work on the Interchange Area Management Plan for the I-5 interchange at Brooklake Road during the 2019-2020 fiscal year. Meanwhile, Marion County is coordinating with a large trucking firm on Brooklake Road that is looking to expand; and the Keizer Transportation Impacts Study is examining the potential for expansion of Keizer that would affect the Brooklake interchange.

## Continuing Activities and Recurring Products

In addition to the studies and products described above, there are multiple activities that either need to be completed each year or are done on a regular schedule (weekly, monthly, quarterly) or are continually updated or are part of the general transportation coordination function of the MPO and our jurisdiction and agency partners. Many of these activities are described in more detail in the sections following this summary.

- **RTSP Activities and/or Amendments and Public Participation**
  - Status Report on meeting RTSP Goals and Objectives
  - Public Participation activities, as necessary
  - Coordination on Performance-Based Planning requirements and development of targets
  - Title VI activities, and Title VI and Public Participation Accomplishment Report
- **TIP Development and Maintenance**
  - Revisions (amendments and administrative revisions) to the adopted SKATS TIP
  - TIP project tracking and project assistance to ODOT and local agencies
  - Development, project selection, and analysis of Congestion Management Air Quality (CMAQ) projects
  - Coordination with ODOT on STIP amendments and ODOT's Financial Plan
  - Annual “Obligation Report of Transportation Projects” inside SKATS
- **Modeling and Data**
  - Travel Demand Forecasting Model improvements
  - Sharing and support of the travel model and population and employment forecasts to agencies/consultants
  - Collecting traffic count (motorized and non-motorized) data for use in the travel demand model as well as for planning studies
  - On-going collection and analysis of data related to the Congestion Management Process (CMP)
  - Upkeep and sharing of the regional land use database and land use forecasts
  - Upkeep and sharing of the geodatabase of transportation projects
  - Collision Quick Facts (yearly summary, or as data is available)
- **Program Management**
  - Monthly agendas, minutes, and meetings of the SKATS Policy Committee (PC) and SKATS Technical Advisory Committee (TAC)
  - Review and process IGA(s) with ODOT
  - Semi-annual and annual reports and invoices to ODOT
  - Annual MWVCOG/SKATS budgets
  - Annual and semi-annual reports
  - Development of next SKATS UPWP
  - Self-certification of the metropolitan planning process with submission of a newly adopted TIP (about every 3 years)
  - Staff training
- **Interagency Coordination**
  - Coordination with local jurisdictions, the Salem Area Mass Transit District, and Salem-Keizer School District, and other agencies
  - Coordination with state agencies (primarily ODOT and DLCD)

- Consultation with tribal governments.
- Transportation Issues shared with MWVCOG members (“COG Connections”)
- Participation in the Oregon Modeling Steering Committee and Modeling Program Coordination subcommittee
- Participate and attend meetings of MPO/Transit Managers and OMPOC (Oregon MPO Consortium - OMPOC)
- AQCD interagency coordination with EPA, DEQ, ODOT, and other agencies

**Table 1: UPWP Program Cost Estimates, Federal Funds, and Match Rates**

<b>UPWP Program Cost Estimates (consistent with 23 CFR 420.111)</b>							
<b>Program Section and Name</b>	<b>Federal Funds, PL</b>	<b>Federal Funds, STBGP</b>	<b>Federal Funds 5303</b>	<b>State and Local Match Rate</b>	<b>State Match</b>	<b>Local Match</b>	<b>Total Estimate</b>
I. Regional Transportation Planning Program	147,157	71,784	0	10.27	18,017	7,042	244,000
II. Corridor and Area Plans & Studies <sup>1</sup>	0	40,379	0	10.27	660	3,961	45,000
III. Regional Project Programming	107,676	96,011	0	10.27	13,894	9,419	227,000
IV. Regional Modeling and Data Program	152,541	156,848	0	10.27	20,024	15,388	344,800
V. Interagency Coordination	62,811	34,097		10.27	7,747	3,345	108,000
VI. Program Management and Coordination	71,410	105,881	35,892	10.27	9,904	14,495	237,583
VII. Metropolitan Transit Planning	0	0	120,903	10.27	0	13,838	134,741
<b>Fund Source Total</b>	<b>\$ 541,595</b>	<b>\$505,000</b>	<b>\$156,795</b>		<b>\$70,245</b>	<b>\$67,489</b>	<b>\$1,341,124</b>

<sup>1</sup> Corridor and Sub-area plans also receive federal funds and local match as part of the SKATS 2018-2023 Metropolitan Transportation Improvement Program. See Section II that shows the federal funds, local match, local match rate, and total funds for these planning activities.

**Table 2: Status of MPO Documents**

<b>Status of SKATS MPO Documents</b> (by chronological order of updates)		
<b>Plan Name</b>	<b>Last Update</b>	<b>Next or Future Updates</b>
Unified Planning Work Program (UPWP)	2018-2019 UPWP adopted April 2018	April 2019: 2019-2020 UPWP
Title VI Plan	Adopted April 27, 2010	Summer 2019
Metropolitan Transportation Plan (MTP) aka Regional Transportation Systems Plan (RTSP)	2015-2035 RTSP adopted May 26, 2016 Scheduled for May 2019: 2019-2043 RTSP	May 2023: 2023-2047 RTSP
Air Quality Conformity Determination for RTSP	Approved by FHWA/FTA on February 26, 2016 for 2015-2035 RTSP update; approval on February 14, 2017 for April 2016 2015-2035 RTSP amendment; Scheduled for May 2019: 2019-2043 RTSP	May 2023: as part of future RTSP update
Annual Listing of Obligated Projects Report	FY2018 Obligation Report – November 2018	December 2019
TMA Planning Certification Review (USDOT)	Certification Issued November 18, 2016. Summary Report May 24, 2017.	April 2020 (tentatively)
Metropolitan Transportation Improvement Program	FY 2018-2023 MTIP adopted April 25, 2017	April 2020: FY 2021-2026 MTIP adoption
Air Quality Conformity Determination for 2018-2023 TIP	Approved by FHWA/FTA on September 29, 2017, updated on October 3, 2018	May 2020: as part of 2021-2026 MTIP update
Public Participation Plan	November 28, 2017	2021 (based on adopted policy of reviewing the PPP every four years)

**Table 3: Local Jurisdiction within SKATS - Transportation System Plans Status**

<b>Jurisdiction</b>	<b>Transportation System Plan</b>	<b>TSP's next update &amp; notes</b>
City of Salem	Last amended in Summer 2018	No current schedule for an update
City of Keizer	Major update: 2009. Revised in June 2014	No current schedule for an update
City of Turner	Section 9.700 of Comprehensive Plan updated in 2011	No current schedule for an update
Marion County	Last adopted 2005 Partially updated 2012	Future update and re-adoption, 2018/19
Polk County	Last adopted in 2009 Partially updated in 2004	No current schedule for an update

### **SKATS Certification Review and Corrective Actions**

As an MPO with population over 200,000 persons, the MPO is classified as a Transportation Management Agency (TMA). Every four years, a team from the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) conduct a Certification Review of the Transportation Planning Process for the TMA.

A certification review was held in October 2016 among FHWA, FTA, staff from the SKATS TMA, as well as staff from ODOT and Salem-Keizer Transit (Cherriots). The public was also invited to a session with the FHWA and FTA on October 11 and October 13. Following the meeting, FHWA and FTA sent a joint letter to SKATS on November 18, 2016 (See **Appendix B**) which stated that *“the overall conclusion of the Certification Review is that the planning process for the Salem-Keizer TMA complies with the spirit and intent of Federal metropolitan transportation planning laws and regulations under 23 USC 134 and 49 USC 5303, subject the findings in the certification report.”*

FHWA and FTA issued the final Certification Report on May 24, 2017. The report noted that corrective actions from a 2012 Certification Review had six (6) corrective actions and that SKATS addressed all six corrective actions. The 2016 Certification Report findings included five (5) corrective actions, eleven recommendations, and one commendation. For this UPWP, FHWA, and FTA requested that SKATS insert the table of corrective actions and recommendation. To this table, SKATS added a column that describes activities to address the corrective actions and recommendations by SKATS since the 2016 on-site review, as well as completed items/documents/procedures as called out in the findings and proposed/planned actions (See **Appendix C**). For the five corrective actions, SKATS staff has indicated the status of each (completed, on schedule, or other).

## I. Regional Plans and Planning Activities in SKATS

Work Items	PL funds  Includes match	STPBG-U funds  Includes match	5303 funds  Includes match	Total Budget Estimate
Public Participation Program	\$26,000	\$25,000		\$51,000
Performance -Based Planning	\$50,000	\$10,000		\$60,000
Regional Transportation Systems Plan (RTSP), CMP, ITS	\$50,000	\$20,000		\$70,000
Regional Safety Planning	\$30,000	\$25,000		\$55,000
Transportation Conformity Determinations	\$8,000			\$8,000
Strategic Assessment <i>[conditional]</i>				Note: (ODOT would provide state funds only through an IGA)
Subtotal	<b>\$164,000</b>	<b>\$80,000</b>	<b>\$0</b>	<b>\$244,000</b>

The core activities and products for addressing regional transportation planning in the Salem-Keizer area are described in this section. Over the next several years, a primary task for SKATS staff will be integrating **performance-based planning** into SKATS' existing planning activities and plans, as required by MAP-21 and FAST Act (and in 23 CFR §450.300). Work internally and with ODOT in previous years started this process; but with the publishing by FHWA and FTA of the final rules for performance-based planning, there are now clear deadlines to meet.

The two main products that the public is already familiar with -- *the Regional Transportation Systems Plan (RTSP) and the Transportation Improvement Program (TIP)* -- represent the long-range and short-term guiding documents for transportation investments, respectively. Changes to these documents to comply with **performance-based planning** regulations and future FHWA/FTA guidance documents will occur in the next full updates for each of these documents (2019 for the RTSP, 2020 for the TIP). The remainder of this section elaborates on these activities and related regional transportation planning activities for SKATS in 2019-2020.

### A. Public Participation Program (PPP)

#### Program Description

23 CFR §450.316 requires the development and use of a documented public participation plan. Statewide Planning Goal #1 (OAR-660-015-0000(1)) requires developing a citizen involvement program for planning. The PPP was adopted in April 2013, with revisions adopted in May 2017, and November 2017. The most recent PPP is available on the MWVCOG website at <http://www.mwvcog.org/programs/transportation-planning/skats/public-participation/>.

The PPP identifies the types of public involvement activities are to be utilized for the RTSP, TIP, amendments, and other SKATS activities, to ensure that the public has awareness and the opportunity to comment on planning studies and draft and adopted by SKATS. The PPP

also complies with other provisions of federal and state law including Environmental Justice Executive Order 12898.

SKATS uses the MWVCOG website, interactive-mapping, and social media to provide information and participation by the public, as well as more traditional methods of outreach to the public such as presentations to groups, neighborhood associations, brochures, and open houses.

### Activities

- Conduct public participation on RTSP and TIP amendments and updates, following the process documented in the PPP.
- Document PPP activities and use the PPP's Measures of Effectiveness (MOE) for public participation. The MOE table lists tools, evaluation criteria, objectives, and methods to meet PPP objectives.
- Continue to use and maintain the MWVCOG website to post SKATS committee agendas and minutes, post updates of documents, and provide other SKATS-related information.
- Continue to identify innovative public outreach and engagement techniques as appropriate.

### Products

- Printed informational materials for the TIP update will be created, as needed, for the public involvement processes. This includes information on the MWVCOG website of the TIP update schedule and key decision points, a multi-page brochure (printed and online), online maps, PowerPoint presentations, fact sheets, media placements, etc. To the extent practicable, staff will include these materials on the MWVCOG webpage.
- SKATS will maintain its webpages on the MWVCOG website ([www.mwvcog.org](http://www.mwvcog.org)) with updated information on the RTSP, TIP, TIP/RTSP amendments, regional planning studies, additional online mapping features of projects, etc.
- The use of informational materials, participation activities, media placements, internet postings, etc. will be documented and provided to ODOT in a SKATS Annual Accomplishment Report on Title VI and Public Participation activities for the year (delivered by October 2019).

## **B. Performance-Based Planning**

MAP-21 introduced two important changes to how transportation planning will be conducted. First, it introduced a performance-based planning paradigm, which specifies data-driven project selection and tracking of the performance of the regional system for better accountability and transparency of how federal funds are spent. All RTSP/TIP plans or amendments adopted after May 27, 2018, need to be compliant with this requirement. Second, a set of national goals were defined with the associated performance measures to track progress toward meeting these goals being codified in subsequent rule making by FHWA and FTA. There are three highway/road-related groups of performance measures

and two transit-related groups. The rules and measures were finalized in 2016 and 2017 by FHWA and FTA. SKATS established the initial targets for each of the performance measures in consultation with ODOT or SAMTD and chose to support the ODOT’s state-level targets. The TIP was updated to include the adopted targets and included a discussion of how the projects in the TIP are helping to achieve the targets. Deadlines for initially setting SKATS targets and how frequently they need to be updated are illustrated in the table below.

During the 2019-2020 fiscal year, SKATS will coordinate with both ODOT and SAMTD, as appropriate, to either establish remaining targets for use in the SKATS area, or to track and report on the targets that have been previously defined. During this UPWP period, SKATS staff will continue the process to inform and work with the Policy Committee and TAC and the public about the change to performance-based planning and how that will change the development of the RTSP and TIP. This work will continue into subsequent years.

The following information illustrates a summary of the Performance Measures applicable to the SKATS TMA; when ODOT, SAMTD and SKATS targets are due; and how often the target is required to be updated. Not shown in the tables is the detailed process that ODOT, SAMTD, and SKATS will use for setting targets, calculating baseline levels, and reporting progress toward the targets, as those details still are being developed.

<b>Performance Measure</b>	<b>Performance Measure Information</b>	<b>ODOT or SAMTD Initial Targets due</b>	<b>SKATS Initial Targets due</b>	<b>MPO updates required</b>	<b>SKATS Specific or Support ODOT/SAMTD Targets?</b>
Safety	Five required measures with targets	Aug 31, 2017	Feb 27, 2018	Every year	ODOT
Pavement & Bridge	4-year targets for Interstate pavement, non-interstate NHS pavement, NHS bridge	May 20, 2018	Nov 16, 2018	Every 4 years	ODOT
System Performance	4-year targets for NHS travel time reliability, Freight reliability, and CMAQ Traffic Congestion and On-Road Mobile Source Emissions	May 20, 2018	Nov 16, 2018	Every 4 years	ODOT
Transit Related Safety	Three required measures with targets	July 20, 2020	January 16, 2021	Every year	SAMTD

Transit State of Good Repair	Conditions of buses and facilities/capital equipment	January 1, 2017	June 30, 2017	Every year	SAMTD
------------------------------	--	-----------------	---------------	------------	-------

Activities

1. Discuss the change to performance-based planning and their implications for future RTSP and TIP development.
2. Discuss potential targets for the federal performance measures, as appropriate, for Safety, Bridge, Pavement, System Performance, and Transit State of Good Repair. It is possible that Transit Safety will require work during this period as well.
3. Amendments and updates to the RTSP and TIP will document how projects added to those documents help to achieve SKATS’ Performance Targets.

Products

- Review and either support ODOT targets or establish SKATS specific targets for 2020 for Road Safety [February 2020]
- Review targets for Transit State of Good Repair [June 2020]

**C. Regional Transportation Systems Plan (RTSP)**

Program Description

The adopted SKATS Regional Transportation Systems Plan (RTSP) represents a comprehensive policy and planning document for investments and strategies needed for the regionally significant transportation systems in the Salem-Keizer urban area. The RTSP complies with the federal regulations (23 CFR 450.324) on the development and content of a metropolitan transportation plan. The RTSP provides coordination and guidance for implementing agencies such as ODOT and the local jurisdictions to provide a multimodal, region-wide transportation system that is effective, efficient, and sufficient to meet the needs of the Salem-Keizer area. Key points about the RTSP are as follows:

- The RTSP is required to have 20-year or longer horizon year: The population forecast totals for the Salem-Keizer UGB and Turner UGB are provided by the Oregon Population Forecast Program (which is run by the Population Research Center at Portland State University). Employment forecasts use a combination of Oregon Employment Department forecasts and the most recent regional and city of Keizer Economic Opportunity Analysis reports. Allocation of those forecasts to sub-areas and transportation analysis zones are based on the currently adopted comprehensive land use plans of the local jurisdictions in SKATS.
- The RTSP is updated every four years using the latest information on current and projected demographics, travel demand, and economic forecasts, as well as to comply with changes to transportation, land use, environmental, or other federal and state regulations, as well as changes in local land use and transportation policies.

- The RTSP is consistent with the transportation systems plans (TSPs) adopted by the local jurisdictions, transit plans adopted by the Salem Area Mass Transit District (SAMTD), and statewide and facility plans adopted the Oregon Transportation Commission (e.g., Oregon Freight Plan and Highway 22 Facility Plan).
- The RTSP’s financial projections are coordinated with ODOT’s financial projections of federal and state dollars likely to be available to the SKATS area over the 20-year horizon of the RTSP. SKATS also works with the local jurisdictions and Cherriots Transit to update financial projections available to these local jurisdictions and agencies.
- The 2019-2043 RTSP contains an updated set of goals, objectives, and indicators; the latter allowing the region to track progress toward accomplishing the RTSP goals. Some of these indicators have data, but others do not; therefore, SKATS staff will need to find methods to collect this information and provide updates to the SKATS committees.
- For the 2019 RTSP update, a set of federally required performance measures was included, as well as presenting the baseline data and tracking the region’s progress toward meeting the targets (*See Section I.B. for details*).
- The RTSP is developed to be in compliance to Performance-Based Planning objectives that were a major focus of the two latest federal surface transportation bills: “Moving Ahead for Progress in the 21<sup>st</sup> Century” (MAP-21) [2012] and the “Fixing America’s Surface Transportation” (FAST) Act [2015] as was mentioned in *Section I.B.*

The most recent U.S. Department of Transportation Planning Certification Review of SKATS (May 2017) identified a few corrective actions to complete as part of the next RTSP update, scheduled for final adoption in May 2019. SKATS has coordinated with FHWA and FTA and other agencies to address these corrective actions in the final RTSP.

#### Activities and Schedule

The 2019-2043 RTSP is expected to be adopted in May 2019. During FY 2019-2020, staff work on the RTSP will likely be limited to tracking the current performance measures and indicators as appropriate. If needed, amendments to the RTSP will be made (using the process in the PPP) to continue to have consistency between plans or projects.

Task for 2019-2020 that will assist in future RTSP updates – such as continuing to maintain information that describes and analyzes the condition and operations of the regional transportation system -- are described in the Regional Modeling and Data Program section of this document (*Section IV*). See **System Monitoring and Reporting** (*Section IV.C*) for discussion of developing a database for indicators used in the goals and objectives of the RTSP.

As part of the regional planning process, SKATS coordinates with ODOT, SAMTD, and the local jurisdictions in development of their plans and studies of regionally significant facilities by participating in review or technical committees; provides current and forecast land use- and travel demand-data from the regional model; and reviews technical reports and draft and final plans for their potential impact on the regional transportation system. As these plans or activities become adopted by the local jurisdictions, they will be incorporated as part of the “latest planning assumptions,” as required by 23 CFR 450.324, that will be used in the

population and employment forecasts, travel model, and proposed transportation improvements in the ongoing transportation planning process. (*See Section IV for specific tasks.*)

*Note: Following adoption of each RTSP update, there often remain “outstanding issues” that require additional planning work and regional coordination. Some of these issues will be covered in this and future UPWP’s Corridor and Sub-Area Plans section (Section II).*

### Products

- Updated indicator data by August 2019 and as data is collected or updated thereafter

#### *i. Congestion Management Process (CMP)*

The Congestion Management Process (CMP) identifies areas with existing congestion for forecasts of future congestion, recommends strategies or projects to address the congestion, and monitors the effectiveness after implementation. The CMP in the 2015 RTSP (Appendix E) received an update to address comments and corrective actions from FHWA and FTA in their Planning Certification Review of 2017 and ideas from the MPO Peer Review in November 2018, including a Plan for Corrective Action (PCA) that has five action items. The PCA activities began in March 2019 with the first meeting of the Congestion Management Working Group. The PCA will continued to be followed, resulting in a draft CMP that will be sent to FHWA. During 2019-2020, SKATS will undertake any remaining activities in the PCA and CMP.

A CMP is reliant on having good data about congestion. SKATS has continually worked over the years to develop the MPO’s data collection and analysis capabilities. Recent years saw efforts to systematically collect traffic counts via traffic cameras on the major regional arterials and analyzing travel time on the CMP corridors using ODOT’s iPEMS analytical package that uses HERE data. In 2019, BlueTooth/WiFi readers will be initially installed along a subset of the corridors for measuring vehicular travel time. and working with the transit district on collecting transit ridership data.

### Activities

1. Use the PCA and revised CMP to analyze congestion and develop strategies.
2. Report and analysis of travel times along CMP corridors using iPEMS data – See also Section IV C. – System Monitoring and Reporting (Activity #4)
3. Continue to coordinate with city of Salem as they install and collect initial data with BlueTooth/Wifi readers
4. Refine the CMP following the activities in the Action Plan
5. Use CMP as one element for selecting projects the TIP Update

### Products

- A revised SKATS CMP will be done by May 31, 2019 (as per the PCA). However, we consider the PCA a “living document” that will be updated as needed as new data is collected and strategies evaluated and adjusted.

#### *ii. Metropolitan Intelligent Transportation System (ITS)*

The Salem Metropolitan Area Intelligent Transportation System (ITS) Plan was adopted in 2005, and the project list was last revised in 2017 in preparation for the 2018/2019 update to the RTSP. Staff will discuss with ODOT ITS staff if there are any modifications necessary to the ITS Plan or any of the ancillary files due to changes in the national ITS architecture.

#### Activities and Products

- Coordination with ODOT about potential ITS modifications

### **D. Regional Safety Planning**

#### Background

In compliance with the FAST Act, states are required to use a data-driven, strategic, and performance-focused approach to improving safety on all roads. Safety projects have been an on-going high priority for funding in the SKATS RTSP and TIP.

State DOTs and MPOs are expected to use safety data to inform their transportation planning and programming decision making and directly link investments that will result in the greatest possible reduction in fatalities and serious injuries. States and MPOs are required to **establish safety performance targets** and are expected to make significant progress towards reducing fatalities and serious injuries for all modes. Each year, the MPO can either agree to support the State DOT target or establish a numerical target specific to the MPO planning area. MPOs' targets are reported to the State DOT, which must be able to provide the targets to FHWA, upon request.

SKATS began collecting and summarizing crash data within the MPO in 2009; however, neither the MPO nor the local jurisdictions in SKATS have attempted any comprehensive analysis of crash data, nor have any of them developed a comprehensive safety plan. The city of Salem did develop a Pedestrian Safety Plan in late 2017; and in 2018, began a process to identify and score locations of requested pedestrian crossing projects submitted by the public).

In 2017-2018, the focus by SKATS was comprehensive analysis of the crash data using ODOT-provided information and Tableau software. This was expanded in 2018-19 to include more recent data and more interactive capabilities. ODOT updated its *Transportation Safety Action Plan* (TSAP) in 2015, adopted in 2016, and has implemented an "All Roads Transportation Safety" (ARTS) data-driven process for funding safety projects in each Region.

#### Program Description

The task for 2019-2020 is to continue to organize the information we've collected about crashes in the SKATS area, safety planning approaches used around the country and in Oregon, and to discuss with the SKATS TAC and Policy Committee potential next steps for safety planning within SKATS.

Staff will continue to coordinate with ODOT to start activities that will complement the TSAP. This can include such things as setting up a Crash Fatality Review Team that

investigates every fatal or serious injury crash to determine the contributing factors and what could be done to improve safety, or investigating what it would take to establish a Safe Communities Program, etc.

### Activities

The following are tasks being considered to take place in FY 2019-2020; although, these could be modified as the region makes further progress and decides on its direction:

1. Update the data needed to determine the targets for the federal safety performance measures to present to the SKATS Policy Committee.
2. Update, as needed, the crash data which is available to the public via the MWVCOG website.
3. Describe existing safety programs and opportunities for improvement in the RTSP update.
4. Attend additional safety training workshops, webinars, etc.
5. Hold one or more Safety Working Group meetings inviting staff from local jurisdictions, ODOT, and emergency responders as well as a representative(s) of the SKATS Policy Committee.
6. Partner with ODOT, SAMTD, and local jurisdictions on safety education and messaging initiatives.
7. If needed, develop a scope of work and contract for consultant services.
8. Continue to review crash data and do analysis, as needed.

Lead: SKATS

### Products

- SKATS Area Crash Facts interactive map.
- Safety Performance targets. (February 2020)
- Update to committees on coordinated safety planning with state and local jurisdictions.

## **E. Transportation Conformity Determinations**

### Program Description

In order to gain federal approval of the region's transportation planning and programming documents (RTSP, TIP), SKATS must consult with state and federal agencies (“transportation conformity”) regarding the expected air quality impacts of the RTSP and TIP. Without **Transportation Conformity Determinations** of the RTSP and TIP, developed following state and federal regulations and requiring approved by USDOT, the region would be ineligible to expend federal transportation dollars to implement the investments called for in those planning and programming documents.

Based on the requirements under the carbon monoxide (CO) limited maintenance plan, transportation conformity determinations for the SKATS RTSP and TIP do not require a regional air quality emissions analysis each time a new transportation plan or TIP is approved or amended. However, as a maintenance area, transportation conformity determinations are still required and must demonstrate that the plan and TIP are fiscally constrained and must meet the criteria for consultation and public involvement.

The most recent FHWA and FTA Air Quality Conformity Determinations (AQCD) were issued on February 26, 2016, for the 2015-2035 Regional Transportation Systems Plan (RTSP) and on September 29, 2017, for the FY 2018-FY 2023 Transportation Improvement Program (TIP). The AQCD for the 2019-2043 RTSP is expected to be issued in the summer of 2019, after the adoption of the RTSP and submittal to FHWA and FTA.

#### Activities and Products

- Preparation and consultation for an Air Quality Conformity Determinations for the TIP Update. Released for public review in February 2020 and submitted with updated TIP to FHWA/FTA in **May or June 2020**.
- Prepare AQCD for any TIP or RTSP amendments (as necessary).
- Continue interagency conformity consultation discussions with federal, state, and local agencies (as necessary).
- Monitor EPA changes to the federal transportation conformity regulations, NAAQS (including possible new ozone standards), and MOVES model.

#### **F. Strategic Assessment**

In January 2017, the Land Conservation and Development Commission (LCDC) updated the greenhouse gases GHG reduction rules and targets for Oregon's metropolitan areas. However, current state rules (as of early 2019) requires only Portland Metro to develop and adopt a plan that reduces future emissions of GHGs from light vehicles. For the other metropolitan areas in Oregon, determining future GHGs and developing plans to reduce GHGs is voluntary. ODOT and LCDC does offer assistance if a metropolitan area opts to do a strategic assessment for reducing GHG

This UPWP does not commit SKATS to doing a Strategic Assessment. If during the UPWP time period that position changes, it is anticipated that ODOT and DLCD would be the lead agencies and do the majority of the work with SKATS staff providing the data inputs to the strategic model and reviewing the model outputs and reports.

## II. Corridor and Sub-Area Plans and Studies

<b>UPWP Work Items</b>	PL Funds (includes match)	STBGP-U Funds (includes match)	5303 funds (includes match)	<b>Total Budget</b>
Cordon Road Corridor Study and Management Plan	0	20,000	0	\$20,000
Keizer Revitalization Plan (began in January 2017)	0	5,000	0	\$5,000
City of Keizer: Growth Transportation Impacts Study	0	20,000	0	\$20,000
total	<b>0</b>	<b>45,000</b>		<b>45,000</b>

<b>Corridor Planning work for local agencies</b>	STBGP-U Funds in MTIP (includes match)	ODOT's TGM Program (includes match)	<b>Total Budget</b>
Cordon Road Corridor Study and Management Plan (Marion County)	205,000	0	\$205,000
Keizer Revitalization Plan (began in January 2017)	0	210,227	\$210,227
City of Keizer: Growth Transportation Impacts Study	190,000	0	190,000
total	<b>395,000</b>	<b>210,227</b>	<b>665,227</b>

Corridor and sub-area planning studies are undertaken to identify land use and/or transportation issues, identify and evaluate alternatives, and determine (as warranted) recommended infrastructure projects that should be included in state and local transportation plans and the SKATS RTSP. Some of these corridors and sub-areas were identified in previous versions of the SKATS RTSP as “outstanding issues,” while others were more recently identified for study by the local jurisdiction or region.

23 CFR 450.318 states that “an MPO(s), State(s), or public transportation operator(s) may undertake a multimodal, systems-level corridor or subarea planning study as part of the metropolitan transportation planning process.” Planning studies are meant to provide the analysis, public discussion, and agency review that is necessary to identify a preferred solution. Some of the following planning studies require work over several years or in separate phases, due in part to staff workload but also due to the necessary processes to collect information, conduct analysis, develop options, and gather stakeholder and public input and jurisdictional approvals. While SKATS is not the lead agency for these studies, all these studies use federal funds and need to be listed in the regional UPWP. SKATS staff are usually involved in some capacity for most of these studies, either on a study’s project management teams, reviewing and commenting drafts of the planning study documents, and providing land use and/or transportation data, including

future year travel demand forecasts from the SKATS travel model. Even for studies where SKATS doesn't have specific activities, the results of the studies are of interest to SKATS as they generate recommended projects to add to the RTSP.

#### **A. Cordon Road Corridor Study and Management Plan – KN 20744**

##### Program Description

The purpose of the Cordon Road Corridor Study is the development of a ***Cordon Road Corridor Management Plan***. The total length of the combined Cordon/Kuebler corridor is 16.9 miles beginning at Viewcrest Drive in south Salem and ending at the Chemawa Interchange at Interstate 5 in Keizer. This study will focus primarily on the portion of the corridor extending from Lancaster Drive SE (south of OR22) to Hazelgreen Road NE and including Hazelgreen Road from Cordon Road to Portland Road (OR99E) and Chemawa Road to Interstate 5. The length of the corridor as defined is approximately 10 miles with 3 miles within the city of Salem and the other 7 miles in Marion County. These sections of the corridor have the most access and development pressures from adjacent land uses; hence, their selection to be addressed in this management plan.

This project was identified through the TIP development process and was added to the TIP in April 2017. The study is funded using \$205,000 in STBGP-U funds (Key No. 20744) from the adopted 2018-2023 SKATS TIP. Activities by Marion County (and consultants, if used) will be funded by this Key Number. SKATS will use STPBG-U funds from the UPWP.

The intent of the Corridor Plan is for Marion County and city of Salem to have a common agreement on the ultimate purpose of Cordon Road (both regionally and locally), including access management, number of lanes, and non-automobile facilities along the corridor. Therefore, the majority of the work the Corridor Management Plan is policy discussion, consideration of options, and final agreement between the two governments, not engineering analysis.

##### Activities

SKATS' role will be determined as the scope of work is draft. We expect that SKATS will include being a member of a Project Management Team and providing data, as needed.

##### Products

Lead: Marion County  
Status: Draft scope of work is expected by July 2019.  
Obligation in federal fiscal year 2019.  
Study is expected to be no more than 12 months.

Deliverable: *Cordon Road Corridor Management Plan*.

#### **B. Keizer Revitalization Plan (TGM-funded planning study)**

##### Program Description

This is a continuation of the work from the 2018-19 UWPP. The purpose of the Keizer Revitalization Plan study is to recommend refinements for the City of Keizer's Comprehensive Plan and Development Code. The Project will build upon and replace previously-adopted neighborhood plans and planning efforts, including the Keizer River Road Renaissance Implementation Report (adopted 2004); the McNary Activity Center Design Plan (adopted 1991); and planning efforts in the Cherry Avenue area.

The project will update these plans and planning efforts to create policies and identify investments to increase development densities and the mix of land uses and to improve conditions for walking, cycling, and riding transit. The project will help Keizer make more efficient use of existing urban land and transportation infrastructure, potentially reducing the need for future Urban Growth Boundary expansions.

This planning study is funded with a State of Oregon Transportation and Growth Management (TGM) grant (IGA # 32385, for a total cost of \$210,227). The IGA, including the Statement of Work (SOW), Deliverables, and Schedule, was approved by city of Keizer on December 18, 2017.

### Activities

The majority of this work will be conducted by the IGA consultant (Otak Inc.) and city of Keizer staff. Keizer has created a webpages for this study on the city's website: See <https://www.keizer.org/supporting-documents-keizer-revitalization-project>

- The project began with stakeholder interviews (March 2018) and draft Goals and Vision for Revitalization (April 2018)
- Existing Conditions (April 2018) – land use, demographics, transportation, and public facilities. (2009/2010 population and employment and projected housing and employment in 2035 for the transportation analysis zones in the study area provided by SKATS)
- Market Analysis (April 2018) – projections, real estate market trends, development considerations
- Gap Analysis (August 2018) – developing three scenarios; implementation considerations and steps; investment in public facilities and services;
- Concepts for Development Code & Comprehensive Plan Amendments (November 2018)
- Public Investments (January 2019)

SKATS' activities will include:

- monitor the progress of this work and participate in stakeholder and public events, when requested.
- provide 2035 or later employment, land use and future traffic forecasts, as requested.
- Task 4.3 of the SOW describes the consultant providing up to three sets of assumptions that reflect future land use scenarios for the project study area for the year 2040 for the input to the SKATS transportation model. This is scheduled to occur the Spring of 2019 or Summer 2019.

### Products

Lead: City of Keizer

Status: Started in January 2018. The study is expected to be completed by August 2019

Deliverable: Deliverables are specified in the TGM's Statement of Work. The activities section above describes deliverables as of January 2019 and available on the study's website.

### **C. City of Keizer Growth Transportation Impacts Study**

#### Program Description

The Keizer Growth Transportation Impacts Study is a planning study to evaluate transportation impacts of different growth scenarios in Keizer: expand the UGB, export growth to other parts of the shared UGB, significantly increase development density within Keizer, or a blend of the three approaches. This study will examine the relative impacts through conceptual design of transportation infrastructure and through modeling of potential impacts. Community involvement is an important component of this project. This project will use consultant services.

This study builds from the "Workshop on Future Growth Opportunities for City of Keizer" (a TGM funded study that was completed in March 2018) and the Keizer Revitalization Plan (described in II.B.). The "Growth Impacts Study" will evaluate three specific scenarios and document the costs and impacts to the transportation system for each scenario.

This project was identified through the TIP development process and was added to the TIP in April 2017. The study is funded using \$190,000 in STBGP-U funds (Key No. 20742) in FY2019 from the adopted 2018-2023 SKATS TIP. Activities by city of Keizer and project consultants will be funded by this Key Number. SKATS will use STPBG-U funds from the UPWP.

#### Activities

1. SKATS' will provide census data, plus current and forecasted housing and employment data.
2. SKATS will assist with the modeling work, as requested.

#### Products

Lead: City of Keizer

Status: Scope of work anticipated by April 2019. According to Keizer staff, planning work is expected to start in October 2019, with completion in 2020

Deliverables: To be clarified when scope of work is completed.

### III. Regional Project Programming

Work Items	PL funds	STPBG-U funds	5303 funds	Total
TIP Development, Amendments, and Adjustments	\$70,000	\$10,000	\$-	\$80,000
TIP Project Development Tracking	\$40,000	\$70,000	\$-	\$110,000
TIP Management System	\$-	\$20,000	\$-	\$20,000
CMAQ Program Administration	\$10,000	\$7,000	\$-	\$17,000
<b>Subtotal</b>	<b>\$120,000</b>	<b>\$107,000</b>	<b>\$-</b>	<b>\$227,000</b>

#### A. TIP Development, Amendments, and Adjustments

##### Program Description

The region's Transportation Improvement Program (TIP) serves as a regional policy and programming document describing which transportation projects, identified phases of a project, and transportation programs have been programmed to receive federal funding in the next four years. Federal regulations on the development and content of a metropolitan transportation improvement program (TIP) are in 23 CFR 450.326. Transportation projects within the SKATS area that receive federal funding are required to be listed in the SKATS TIP as well as all regionally significant projects to be funded with non-Federal funds.

The TIP is prepared in response to Federal Highway Administration and Federal Transit Administration (FHWA/FTA) regulations that require a program of regionally significant transportation investments be developed by the Metropolitan Planning Organization (MPO) and updated at least every four years. The SKATS TIP is usually updated every two to three years to correspond with the update of the Oregon State Transportation Improvement Plan (STIP). The TIP must include a priority list of projects for at least four years and include a financial plan that demonstrates which projects can be implemented using anticipated revenue sources. Revenue projections are coordinated with ODOT. In the Salem-Keizer area, the TIP is prepared by SKATS in cooperation with FHWA, FTA, ODOT, SAMTD, and the local jurisdictions.

Staff will be concerned with two TIPs during this UPWP cycle:

##### **FY 2018-2023 TIP**

The FY 2018-2023 TIP covers federal fiscal years 2018 to 2021 (with FY 2022 and 2023 included as illustrative years for planning purposes). This TIP was originally adopted on April 25, 2017, and is revised, as needed, following the TIP's Management Process.

##### **FY 2021-2026 TIP**

The next TIP will cover federal fiscal years 2021 to 2024 with FY 2025 and 2026 included as illustrative years. Formal work on this TIP will began in September of 2018, with a call for projects on February 1, 2019 and anticipated adoption of the TIP in May 2020.

On December 4, 2015, President Obama signed into law the Fixing America's Surface Transportation Act, or "FAST Act," the first Federal law in over ten years to provide long-term funding certainty for surface transportation. The FAST Act authorizes \$305 billion nationwide over fiscal years 2016 through 2020. The financial assumptions used in developing the FY 2018-2023 TIP were based on the FAST Act. The financial assumptions used in developing the FY 2021-2026 TIP are based on projections developed in conjunction with ODOT and the Oregon MPOs.

Activities related to the three-year cycle of the development, preparation, and maintenance of the TIP are provided under this work element as are the public involvement activities related to the TIP as required by federal regulations. The MPO shall provide all interested parties with a reasonable opportunity to comment on the proposed TIP. Details on public participation, including key decision points in the development of the TIP and public outreach, are contained in the SKATS Public Participation Plan (adopted November 2017).

Due to uncertainties, timing, and modifications to federal, state, and local funding in recent years -- along with general changes occurring during the project development phase of many projects -- a significant portion of time is required between update cycles to revise and maintain an accurate accounting of the projects in the adopted SKATS TIP. Maintenance activities for the SKATS TIP include coordination between FHWA, FTA, ODOT, the MPO, the SAMTD, and local jurisdictions to prepare and respond to changes in both available funding and individual project modifications.

A draft TIP update and any amendments to an adopted TIP that add or delete non-exempt projects requires the completion of air quality conformity determinations to demonstrate compliance with air quality regulations according to the requirements of the section 40CFR 93.104 (Frequency of Conformity Determinations) of the Transportation Conformity Regulations. Since the acceptance of the SKATS Limited Maintenance Plan for CO, conformity requirements are primarily limited to interagency consultation. (*See Section I. E. above.*) Full amendments to the TIP have to demonstrate how the TIP shows progress toward achieving the performance targets established under 23 CFR 450.306(d).

### Activities

For FY 2019-2020, activities related to the TIP fall in three general categories:

1. Maintenance activities of the adopted SKATS MTIP
  - a. Coordinate with the ODOT Region 2 STIP Coordinator on TIP and STIP changes for projects within the SKATS MPO.
  - b. Check that projects in the adopted TIP match the adopted STIP.
  - c. Check that projects in the adopted TIP are correctly specified in ODOT's Financial Plan (produced monthly).
  - d. Revise, when necessary, the adopted SKATS TIP (via amendments, adjustments, or administrative modifications) based on new federal or non-federal funding availability and/or changes in projects as they proceed with their development.
  - e. Follow the TIP's Management Process for all TIP revisions.
  - f. Follow SKATS PPP (Public Participation Plan) for any TIP Amendments.
2. Coordinate with ODOT as it develops the FY 2021-FY 2024 STIP
  - a. Work by ODOT on the FY 2021-FY 2024 STIP began in July 2017 and will continue until it is adopted in June 2020 by the Oregon Transportation

Commission. SKATS will coordinate with ODOT, as needed, regarding new STIP projects within the SKATS area, as well as make sure that SKATS projects are included in the STIP.

3. Development of the SKATS FY 2021-FY 2026 TIP
  - a. Project solicitation and prioritization.
  - b. Scoping of the projects.
  - c. Public Participation (following the adopted PPP).
  - d. Develop Interactive Map to inform the public and solicit input.
  - e. Prepare several funding scenarios.
  - f. Prepare draft and final TIP documents.
  - g. Consultation according to established Consultation Process.
  - h. Enter the TIP projects into the statewide STIP system.
  - i. Adoption of the TIP in May 2020, effective on October 1, 2020.

Note: Discussion for the 2024-2027 STIP and SKATS MTIP may start in July 2020.

### Products

- TIP amendment documents and resolutions - Work with the SKATS TAC and Policy Committee on any revisions needed for the adopted TIP following the adopted TIP management practices and produce needed documents and resolutions.
- Produce project application prioritization materials for the 2021-2026 TIP.
- Produce public participation materials for the updates to the TIP including interactive map.
- Draft and Final **SKATS FY 2021-FY 2026 TIP (scheduled adoption in May 2020)**.
- Upload copies of the adopted TIP, revised TIP tables, Air Quality Conformity Determinations, and resolutions for amending the TIP to the MWVCOG website. ([www.mwvcog.org](http://www.mwvcog.org))

## **B. TIP Project Development Tracking**

### Program Description

The Transportation Improvement Program (TIP) identifies which projects are to receive federal funding. However, programming these funds in the TIP is just the first step of the project development cycle. To ensure that TIP projects and program funding levels are being carried forward expeditiously, SKATS staff works with ODOT and the local jurisdictions and agencies to help with any coordination work needed to move projects forward. This includes working with the ODOT Region 2 local area liaisons, other ODOT Region 2 staff, and local jurisdictions' staff to review projects as they progress through project development; revise the TIP and STIP when necessary; assist with IGAs; track the project status and funding in ODOT's Financial Plan (specifically projects funded with STPBG-U, TA-U, and CMAQ funds); and providing other assistance, as needed.

ODOT and the large MPOs have been working through a process to improve the obligation rate of projects. This will include tracking when projects are obligated. As this process is finalized, more details will be included.

As a requirement of 23 CFR 450.334, SKATS works with ODOT and SAMTD to organize data for the Annual List of Obligated Projects which shows which projects (or project phases) have been obligated by FHWA or have received an FTA grant.

#### Activities

1. Assist the local jurisdictions, ODOT, and Salem Area Mass Transit District with TIP amendments and administrative modifications.
2. Track the status of STPBG-U, TA-U, CMAQ, and other federally funded projects (status of obligation, project development phases, etc.).
3. Work with ODOT's Region 2 and Highway Program staff to match the projects in the TIP with the STIP and ODOT's Financial Plan.
4. Act as a liaison between federal agencies, ODOT, SAMTD, and local jurisdictions to resolve delays in project development.

#### Products

- Develop the annual list of obligated projects developed in coordination with ODOT and SAMTD and post on MWVCOG's website (**December 2019**).

### **C. TIP Management System Enhancements**

#### Program Description

The MPOs in Oregon are investigating whether to support and fund a comprehensive TIP Management System using a common software program. Currently, SKATS tracks the area's TIP projects and amendments using several unrelated spreadsheets which is not connected to the State's database. Funds provided to OMPOC's work program will be used for this work

Potential advantages of a TIP management system include:

- Improved communication between employees at different agencies, who can now electronically obtain the same project information that they would have previously requested via phone or-mail.
- Ability to electronically transfer project information to the STIP database.
- Improved ability to research project information.
- Connect the long-range (RTSP) and short-range (TIP) projects.
- More easily demonstrate financial constraint by year and funding source.

#### Activities and Products

Discussion of this work among the MPOs began in 2016, and it was added to the OMPOC work program in 2017. Substantial coordination took place during 2018-2019, but no decision was made. During 2019-2020, SKATS staff will continue to review and collaborate on this project with the other MPOs. **No specific completion date has been determined.**

### **D. CMAQ Program Administration**

### Program Description

The Congestion Mitigation and Air Quality Improvement Program (CMAQ) was created under the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991 and has been reauthorized under each subsequent federal legislation.

The purpose of the CMAQ program is to fund transportation projects or programs that will contribute to attainment or maintenance of the National Ambient Air Quality Standards (NAAQS) for ozone, carbon monoxide (CO), and particulate matter (both PM10 & PM2.5).

Based on FHWA's CMAQ Program Guidance each CMAQ-funded project must meet three basic criteria: it must be a transportation project, it must generate an emissions reduction, and it must be located in, or benefit, a nonattainment or maintenance area. The expected emission reduction benefits of CMAQ projects are required to be documented. In addition, all CMAQ projects must be included in or consistent with the current Regional Transportation Systems Plan (RTSP) and Transportation Improvement Program (TIP).

SKATS started receiving CMAQ funds for the 2018 fiscal year. The programming of CMAQ funds will be combined with the process used for selecting and programming STBGP-U and TA-U funds during the development of the SKATS FY 2021-FY 2026 TIP. In order to receive CMAQ funds, the reduction of Carbon Monoxide (CO) must be demonstrated. SKATS has developed a process to calculate the emissions benefit of projects that is submitted to ODOT and FHWA for approval before a project can receive CMAQ funds.

### Activities and Products

- Work with local project sponsors and ODOT staff on documenting the selection and emission reduction benefits of proposed CMAQ projects.
- As with other TIP projects, keep tabs on CMAQ projects as far as TIP and STIP entries and obligation of funds.

## IV. Regional Modeling and Data Program

Work Items	PL funds	STPBG-U funds	5303 funds	Total
Regional Population and Employment Data and Forecasts	\$10,000	\$18,800	\$-	\$28,800
Travel Demand Model Data, Forecasts, Refinement	\$75,000	\$40,000	\$-	\$115,000
Systems Monitoring and Reporting	\$70,000	\$90,000	\$-	\$160,000
Household Travel and Activity Surveys	\$15,000	\$26,000	\$-	\$41,000
<b>Subtotal</b>	<b>\$170,000</b>	<b>\$174,800</b>	<b>\$-</b>	<b>\$344,800</b>

### A. Regional Population and Employment Forecasts

#### Program Description

This work element involves the development, refinement, maintenance, monitoring, updating, and sharing of the regional population and employment data, forecasts, and allocations. This task includes activities associated with analyzing state, county, and regional forecasts; gathering and summarizing building permit data and state ES-202 employment data; updating the base year GIS land use data; other data collection activities which may be appropriate for this element; and developing the SKATS long-range forecast and allocations in coordination with the local jurisdictions. The results of these tasks are used primarily in the generation of SKATS travel demand model inputs, but the forecasts are also shared with ODOT and local jurisdictions in other planning studies.

#### Relationship to Previous, Current, and Future Efforts

During the 2014-2015 year, SKATS staff and a Land Use Working Group of local jurisdictional planners completed an update of the population, housing, and employment forecasts for the year 2035 for use in the 2015-2035 RTSP. The 2035 population, housing, and employment forecasts are summarized in Chapter 5 and Appendix A of the RTSP update.

More recently, coordinated population forecasts have been prepared by staff from Portland State University's Population Research Center (PRC). In June 2017, PRC finalized the 2017 to 2067 population forecasts in 5-year intervals for Marion County and Polk County, as well as forecasts for each UGB area in each county. (In Marion County, PRC developed the long-rang forecast for the Salem/Keizer UGB but did not have separate forecasts for Keizer or Salem). These forecasts are required to be used by the jurisdictions for their local long-range planning and will be used for the SKATS RTSP 2043forecast. However, SKATS requires that these forecast totals be allocated to Transportation Analysis Zones (TAZs) for use in the travel demand forecasting model. SKATS began the process of staffing the Land Use Working Group in December 2017 to allocate these forecasts; and finished this work in June 2018. The Policy Committee approved the 2043 forecasts at their June 2018 meeting.

One difficulty for allocating regional population forecasts to TAZs has been that the city of Keizer adopted future population forecasts that would be difficult to achieve without either an expansion of the shared Salem-Keizer Urban Growth Boundary (UGB) and/or changes to land use densities inside the Keizer part of the UGB. The two planning studies (the Keizer

Growth and Transportation Impacts Study and Keizer Revitalization Plan) described in the Corridor and Sub-Area Plans section of this UPWP will help the city evaluate future growth options and their impacts including transportation outcomes.

#### Activities and Products

1. Provide census-based data (past and current year) the population and employment information and regional forecasts developed for the RTSP to local jurisdictions, special districts, and state agencies, as requested, for use in their long-range planning studies. **(As-needed)**
2. Provide land use, employment, and other model input data to ODOT, local jurisdictions, and agency-contracted consultants for use in regional, corridor and area plans and studies. **(See Section II)**
3. Continue work to keep the land use and future development GIS data updated:
  - a. coordination and system-development activities necessary to maintain currency of GIS-based land use and population and employment forecast databases. **(On-going)**
  - b. Work with local jurisdictions to refine data collection and maintenance procedures associated with building permits and changes in comprehensive land use plans. **(On-going)**
  - c. Update the regional land use inventory and comprehensive plan designations using data supplied by the local jurisdictions in the region. **(On-going)**
  - d. Update the SKATS employment data using Oregon Employment Department ES-202 data. **(As-needed)**
4. Evaluate ACS 5-year products as they are released. **(As-needed)**
5. Evaluate ODOT's synthetic population tool PopSym for use as substitute input to SKATS' travel model

### **B. Travel Demand Forecasting: Data, Forecasts, and Refinement**

#### Program Description

This work element contains activities related to the development and support of the travel model necessary to carry out the regional transportation planning tasks described in **Section I**. Included in these activities are the refinement, calibration, and update of the regional travel demand models necessary for the production of traffic and transit estimates for base year, committed, and future-year alternatives for the RTSP, the regional, area, and corridor planning studies (identified in **Section II** of the UPWP), and the local TSPs, as required or needed.

SKATS conditionally assumed responsibility for the regional travel demand model from ODOT in 1994 and over the years has continued to follow best modeling practices in cooperation and partnership with ODOT and other MPOs.

## Activities

1. **Refinement and maintenance of recently updated travel model:** In 2016-2018, SKATS employed staff from Metro to help update the travel model using data from the 2010 Household Activity Survey. Activities for FY 2019-2020 will focus on additional validation work of the updated model in order to make it available for planning studies, as well as producing model results to support the development of the 2019/2020 update to the TIP.
2. **Work on Next-Generation model and data:** Efforts have been underway for several years to research and define the structure and data required for the next version of the travel demand model. Activities that will continue for this UPWP period include:
  - a. Continue ongoing coordination work with ODOT and their contractors and other MPOs on the development of the statewide model (and its connection with urban area model) and incorporating transportation data from the 2010 Oregon Household Activity Survey analysis (*See IV.D below*) into existing and future travel demand models.
  - b. Coordination with the Oregon Modeling Steering Committee and its Modeling Program Coordination subcommittee on improvements to MPO models and coordination between statewide and MPO models. This could include the movement to a “population synthesizer” as a way to specify the characteristics of household used as model input.
  - c. Investigate and discuss with ODOT, the other MPOs in the state, and the regional partners the appropriateness and usefulness of alternative modeling structures (such as a person activity or tour model) for a future regional travel demand model.

## Products

- Products, such as maps and tables of model results, will be produced as required by any on-going planning study.

## **C. Systems Monitoring and Reporting**

This work element includes the on-going refinement and maintenance of the various transportation databases necessary to support the planning process and to provide the basis for reports required under federal surface transportation acts (such as FAST). These databases cover the characteristics, operations, and projects located on the regional transportation system. Tasks in this section include analyzing and reporting the results of the data collection efforts undertaken by SKATS, ODOT, SAMTD, and the local jurisdictions.

Reporting of the results is centered on two efforts: the Congestion Management Process (CMP) — which is required for TMAs and regulated in 23 CFR 450.322 — describing the current operation of the regional system and the performance measures which track how the investments made on the regional system are meeting the goals and objectives outlined in the 2019-2043 RTSP. The data will be used to report on these as specified under federal regulations. (*See section I.A*)

The data used for the reports and activities of this element are provided to SKATS in a

variety of formats and reporting schedules. As such, in any given year the products released by SKATS will differ. SKATS will continue to work with its partners to ensure the timely release of related products.

### Activities

1. Maintain regional systems inventories required by MAP-21/FAST and the Transportation Planning Rule (TPR).
2. Update and maintain regional street, transit, and other transportation-related infrastructure inventories, as appropriate, in GIS format.
3. Update and maintain a database of projects on the regional road system to assist in preparing updates to the RTSP and TIP, as well as developing current and future year networks for the regional travel demand model. This includes the work started in 2013 to create a geodatabase of completed transportation projects on the regional system as well as projects funded in the SKATS TIP.
4. Work in-house and with the SKATS committees to revise and refine the CMP process and integrate it into the project selection framework. [See also CMP discussion under the RTSP update.]
5. Continue to revise and refine the comprehensive traffic count and transit ridership database developed by SKATS to provide a central repository of data for internal use.
6. Evaluate current techniques for visualization of data and research best practices and test for applicability with SKATS data sources and customers.
7. Develop and maintain a database of collision locations and other pertinent safety-related information within the SKATS study area.
8. Research and prototype a system for evaluating needs and existing conditions in regard to Safe Routes to Schools locations.
9. Investigate additional methods of data collection, storage, and analysis in regard to characteristics of all travel in and through the region, whether located on the regional system or not. The goal is to minimize staff effort while maximizing data collected and analyzed. This may include the purchase and use of new tools and travel time and Origin/Destination data sources (both public and private), working, as appropriate, with ODOT, SAMTD, and/or the local jurisdictions.
10. Develop and maintain a database for the indicators and performance measures defined in Chapter 3 of the 2019-2043 RTSP. Refine the indicators, as needed. For those indicators that require data currently not collected, develop the capability to collect, process, analyze, and store the underlying data. This database will also form the base for the data collected and analyzed as part of the requirement from MAP-21/FAST for system performance measures.
11. SKATS maintains and updates GIS layers about bike lanes and bike conditions on roadways (for example, shoulder pavement width). In 2011, 2013, 2016 and 2017, Trip Choice at Cherriots has produced, printed and distributed a Salem and 3-county area bike

map for the public. SKATS provides updated bike data for this map, as well as the cartographic layout for the printing process. Trip Choice is planning to update the map again in late 2019 or early 2020 and will reassess the design likely updating and changing the layout and many of the data inputs. SKATS staff will work with Trip Choice staff on the new design and provide the base inputs needed for the new map production.

#### Products

- **Regional Operational Characteristics Report (ROCR)** that describes travel conditions on the region's roadways based on travel time data, traffic counts, transit ridership, and collision information and that is collected, stored, and processed by SKATS. Travel time data will be updated annually as part of the ROCR, with data collection along corridors as needed for project planning.
- **Collision Quick Facts**, a document and interactive webpage providing a brief overview of the collisions that occurred in the region over the previous year. **(Annually, about 3-4 months after ODOT provides the data.)**
- Databases and geo-databases containing regional roads information, traffic counts, transit ridership, collision information, and completed, funded, and planned future transportation projects in the region. Include this information on the MWVCOG website, as feasible. **(On-going)**
- Base inputs and coordination for updated bike map for public distribution. **(by June 2020)**

#### **D. Household Travel and Activity Surveys**

Household activity and travel surveys were conducted in the SKATS area in 1994-1995 and were used in the previous travel demand models. In 2010, a household travel surveys from about 1800 households in SKATS was collected. Data from this survey has been used in updating and calibrating the travel demand models (auto ownership, trip generation, mode choice, destination choice, etc.). **(See Travel Demand Forecasting section IV.B.)** In 2017, ODOT hired a consultant to develop a summary report of the 2009-2011 OHAS data, which includes a short-summary for each MPO and ODOT Region that participated. This project was finished in mid-2018 and will be used by the partners within Oregon to educate policymakers of the findings and to assist in developing the next household survey.

#### Activities

Starting in the 2018-2019 UPWP and continuing in this UPWP, SKATS staff will work with other partners in Oregon to refine the proposal for scoping a future travel survey. The date for the collection of the survey is not known at this time, but is tentatively scheduled between 2020 to 2022 for the SKATS area. In addition, other data sources that could provide similar information in a timelier manner will be investigated. **(See Systems Monitoring and Reporting section IV.C)**

#### Products

- Updates to committees about status of

## V. Interagency Coordination

Work Items	PL funds	STPBG-U funds	5303 funds	Total
Interagency Coordination	\$70,000	\$38,000	\$0	\$108,000

### Program Description

In order to ensure that SKATS maintains a continuing, cooperative, and comprehensive planning process that results in plans and programs that are consistent with other transportation planning activities that may affect the region, other activities beyond the coordination and management of the SKATS committees are necessary. Inter-jurisdictional efforts include coordination with the members of the Mid-Willamette Area Commission on Transportation (MWACT), ODOT Statewide Modal/Topic planning work, Statewide and General Corridor Planning that affects SKATS, and Region 2 planning and project development staff, as required. In addition, coordination occurs between SKATS and FHWA, FTA, DEQ, DLCD, ODOT, the MPOs, League of Oregon Cities (LOC), Association of Oregon Counties (AOC), the Oregon Modeling Steering Committee (OMSC), the Oregon MPO Consortium (OMPOC), and most importantly the region's local jurisdictions and elected bodies.

This work element includes activities such as participation in various committees (advisory committees, project management committees, technical committees, modeling support activities, etc.) to ensure the coordination of SKATS transportation planning activities with related efforts occurring in the region and the state. The kind of participation in these inter-jurisdictional efforts varies over time and depends on the current focus of work efforts of state agencies, other MPO in Oregon, local jurisdictions and others. The activities section below lists interagency and inter-jurisdictional studies or projects that SKATS staff expect to participate in; although, additional studies and projects may occur during the planning period.

Federal regulations (*23 CFR 450.314*) require the development of an agreement between SKATS, ODOT, and the Salem Area Mass Transit District (SAMTD) on roles and responsibilities for each agency. This agreement (IGA #32794) was updated and executed on February 07, 2019 and is included as an appendix (*Appendix E*) to this UPWP.

### Activities

1. Participate in the coordination of corridor and facility plans and other planning and project activities in the region (those listed in *Section II Corridor and Area Plans* in particular, but others that affect the regional transportation system [e.g., Salem's work on a potential 2<sup>nd</sup> Street underpass or overpass] during the UPWP time period to ensure a continuing, cooperative, and comprehensive SKATS planning process.
2. Participate in the update of local jurisdictional Transportation System Plans, as needed.
3. Participate in meetings and activities of the Oregon Metropolitan Planning Organization Consortium (OMPOC). Attend the quarterly meetings of MPO/Transit agencies.
4. Participate in the Oregon Modeling Steering Committee, Modeling Program Committee, and other related transportation modeling and research subcommittees.

5. Continue to evaluate and address new requirements resulting from federal transportation legislation (MAP-21 and its successor FAST Act), changes to federal regulations, federal guidance documents, etc. Work with staff from FHWA Oregon division and FTA on corrective actions and recommendations from the SKATS Planning Certification Review of 2017.
6. Interagency coordination with EPA, DEQ, ODOT, etc. for consultation on Air Quality Conformity Determinations (AQCDs) for the TIP and/or RTSP, as needed.
7. Interagency coordination with local jurisdictions, ODOT, the Salem-Keizer School District, and other stakeholders to support a Safe Routes to School (SRTS) program within the SKATS area. Submit grant request to ODOT for a SRTS non-infrastructure grant. As this partnership continues to develop, assist with development and start-up of a Safe Route to School program, potentially at the MWVCOG.

## VI. Regional Program Management & Coordination

Work Items	PL funds	STPBG-U funds	5303 funds	Total
Program Management and Coordination	\$64,000	\$75,000	\$40,000	\$179,000
Unified Planning Work Program	\$10,000	\$10,000	\$-	\$20,000
Self Certification, ADA, and Title VI	\$5,583	\$8,000	\$-	\$13,583
Staff Development and Training	\$-	\$25,000	\$-	\$25,000
Subtotal	\$79,583	\$118,000	\$40,000	\$237,583

### A. Program Management and Coordination

#### Program Description

This work element will provide for overall program management and coordination for ongoing MPO activities such as budget preparation, contracts, grants, personnel, as well as tasks as needed/required by the SKATS committees staffed under this element. SKATS committees currently providing oversight of, and input to, SKATS operations include the Policy Committee (PC) and the Technical Advisory Committee (TAC). SKATS staff are employees of the Mid-Willamette Valley Council of Governments, and this work element includes management activities that are necessary to maintain operations for the SKATS work program (budgets, invoices, quarterly reports, presentations, etc.)

#### Activities

1. Provide staff support to the various committees and subcommittees related to SKATS operations to ensure coordination between federal, state, regional, and local transportation planning efforts.
2. Manage SKATS budget, staff time, IGAs, invoices, and related products. Prepare and process necessary planning agreements.

#### Products

- Meeting agendas, minutes, meeting materials, draft and final documents to the SKATS Policy Committee and Technical Advisory Committee, and other subcommittees, as needed. **(Monthly, as required.)**
- Quarterly reports and invoices submitted to ODOT.
- Annual report to ODOT.
- Execution and monitoring of PL Fund and Section 5303 funding IGA, Pass-through IGA between MWVCOG and SAMTD, and other agreements necessary to carry out the existing and future UPWPs.

## **B. Unified Planning Work Program and Quadrennial Certification Review**

23 CFR 450.308 specifies the requirements for a MPO to develop a Unified Planning Work Program (UPWP). Federal regulations require the MPO, in cooperation with ODOT and the SAMTD, to prepare UPWPs that describe the planning priorities and the tasks, responsibilities, schedules for completion, and products associated with the regional transportation planning activities proposed for the region. ODOT and the MPOs have established a protocol for the development and review of the annual UPWPs.

Every four years, FHWA and FTA do a Transportation Planning Certification Review of the SKATS TMA. FHWA and FTA issued a certification in November 2016 and issued their full report in May 2017. SKATS has worked with the federal agencies on follow-up of the corrected actions or related recommendations from the 2017 Certification Review, including in a Congestion Management Program peer review in November 2018. The next certification review occurs in the first half of 2020 and SKATS will coordinate with FHWA and FTA on materials needed for that review.

### Activities

1. Annual draft UPWP review with SAMTD, ODOT, FHWA, and FTA. **(February or March 2020)**
2. Quadrennial SKATS TMA Planning Certification Review. **(May 2020)**

### Products

- Adoption of an annual UPWP by SKATS Policy Committee. **(April 2019)**
- Production of required documentation to ODOT, FHWA, FTA, and others of SKATS activities such as semi-annual narrative and financial reports. **(Semi-annual and Annual)**

## **C. Self-Certification, ADA, and Title VI**

### Program Description

Implementing regulations associated with MAP-21 require various forms of "certification" for regional planning activities by federal agencies in order to maintain the eligibility of the region to receive and expend federal grant and project funds. Certification of the

metropolitan planning process — as required by 23 CFR 450.336 — requires a determination of compliance of the all applicable requirements including:

1. 23 USC 134, 49 USC 5303, and 23 CFR 450 subpart C.
2. Sections 174 and 176 (c) and (d) of the Clean Air Act, as amended, and 40 CFR part 93.
3. Title VI of the Civil Rights Act of 1964, as amended, and 49 CFR part 21.
4. 49 USC 5332, prohibiting discrimination.
5. Section 1101(b) of the FAST Act and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises.
6. 23 CFR part 230, regarding the implementation of an equal employment opportunity program.
7. The provisions of the Americans with Disabilities Act of 1990 and 49 CFR parts 27, 37 and 38.
8. The Older Americans Act, as amended.
9. Section 324 of title 23 USC regarding the prohibition of discrimination based on gender.
10. Section 504 of the Rehabilitation Act of 1973 and 49 CFR part 27 regarding discrimination against individuals with disabilities.

Activities related to the preparation and documentation of these required certifications (such as those related to the regional transportation planning process, ADA, Title VI, and Environmental Justice provisions) are included in this work element.

As explained on FTA’s website, the Title VI of the Civil Rights Act is a statutory and regulatory requirement and all FTA and FHWA grantees (including MPOs, ODOT, and Transit Agencies) must comply with the provisions of Title VI. Title VI requirements are broader in scope than environmental justice. Title VI was designed to ensure that federal funds are not being used for discriminatory purposes. Executive Order 12898 is a Presidential Executive Order signed in 1994 issued to focus federal attention on the environmental and human health conditions in minority and low-income communities. See *Appendix D* for a comparison between Title VI and Executive Order 12898. While they overlap, engaging in an EJ analysis under transportation planning and NEPA provisions will not satisfy Title VI requirements. Similarly, a Title VI analysis may not necessarily satisfy environmental justice requirements (one reason is that Title VI does not include low-income populations).

MWVCOG is committed to complying to the American’s with Disability Act. SKATS meetings are held in locations that are ADA accessible. Every public meeting of the SKATS committees includes the following declaration: *The Mid-Willamette Valley Council of Governments is pleased to comply with the Americans with Disabilities Act (ADA). If you need special accommodations or translation services to attend this meeting, please contact Lori Moore at (503) 540-1609, or send e-mail to lomoore@mwvcog.org at least 72 hours prior to the meeting. Hearing impaired please call Oregon Telecommunications Relay Service, 7-1-1.*

#### Activities/Products

1. Have in place a Title VI Plan and Assurances including discrimination complaint forms and procedures for handling discrimination complaints.
2. Continue to collect data on participants of public involvement activities.

3. Use procedures developed for Title VI compliance to document beneficiaries of proposed projects in RTSP and TIP.
4. Review and assist, as appropriate, in the ADA, Title VI, and Environmental Justice documentation produced by SAMTD.
5. Document compliance with all applicable federal regulations in order to maintain the region's planning process "certification" and eligibility to continue to receive federal transit and highway funds. Submit self-certification as part of 2021-2024 SKATS TIP submittal, as per ODOT clarification of June 27, 2017.
6. Prepare an annual Title VI and Public Participation Accomplishment Report. **(October 2019)**
7. After meeting with USDOT and ODOT officials for SKATS quadrennial review (June 2016), work with USDOT on discussion of any corrective actions or recommended changes for metropolitan planning in the SKATS area to comply with federal regulations.

#### **D. Staff Development and Training**

##### Program Description

In order to ensure that SKATS maintains a continuing, cooperative, and comprehensive planning process that results in plans and programs that are professional in nature and incorporate as far as possible the latest advances in transportation planning and processes, activities necessary to attract, develop, and retain quality staff are vital to the operation of the MPO. This work element embodies staff development and training activities including attendance at workshops, conferences, and other professional development events. This element also includes activities related to the training of staff in the operation and application of computer modeling techniques such as those associated with transportation modeling, GIS, and other graphic presentation and document production software.

##### Activities

1. Implement appropriate activities consistent with the needs of the program in terms of developing and training a high-quality professional staff.
2. Provide training associated with implementing provisions of MAP-21/FAST transportation authorization bills and related USDOT regulations.

## VII. Metropolitan Transit Planning (49 USC 5303 and 23 CFR 450)

Work Items	PL funds	STPBG-U funds	5303 funds	Total
Regional Transit System Planning	\$-	\$-	50,000	50,000
Regionally Significant Project Planning	\$-	\$-	35,000	35,000
Transportation Improvement Program	\$-	\$-	8,714	8,714
Civil Rights, LEP, Environmental Justice, etc.	\$-	\$-	19,000	19,000
General Regional Planning Coordination & TSP	\$-	\$-	11,000	11,000
Other Transit Planning with Federal and State Funding			11,000	11,000
Subtotal			\$134,741	\$134,741

### Background

49 USC Section 5305(d) provides the authority to use federal funds to support the development of the metropolitan transportation system plan, metropolitan TIP, and in designated TMAs (like SKATS), addressing congestion management. The general and specific requirements for these activities are described in 49 USC Section 5303.

Under MAP-21, the State is the designated recipient of 5303 funds; and the State is required by law to distribute these funds to urbanized areas (SKATS is the subrecipient) for transportation planning in the metropolitan planning areas. By separate contract, SKATS passes-through the majority of these 5303 funds to Salem Area Mass Transit District (SAMTD) to assist SKATS with metropolitan planning issues, particularly areas involving public transit planning. Specific guidance on eligible activities, metropolitan planning requirements, and roles and responsibilities are found in FTA Circular 8100.1C “*Program Guidance for Metropolitan Planning and State Planning and Research Grants*” (dated September 1, 2008). The joint FTA/FHWA Metropolitan Planning regulations are found at 23 CFR Part 450.

Metropolitan planning includes development of the long-range system planning and shorter-range planning studies that support the integrated management of a multi-modal transportation system and facilities. Transit planning plays a key role as part of this multi-modal system including:

- coordination of transit planning between SKATS RTSP, SAMTD’s Strategic Business Plan (2004), the Comprehensive System Plan (2014), and SAMTD’s Long-Range Strategic Plan (2011) which outlines the overall district vision and goals for the next 20 years;
- coordination and review of transit projects and programs included in the SKATS TIP;
- coordinating transit planning with other transportation planning studies and land use studies in the region;
- designing transit services and Transportation Demand Management (TDM) programs to better meet the mobility needs of the community;
- financial planning;
- coordination of emissions benefit estimates for any transit-supported CMAQ funds; and
- designing operational and management strategies to improve the performance of existing transportation facilities to relieve vehicular congestion and maximize the safety and mobility of people and goods (part of the congestion management process (CMP)).

The 5303 Planning Work Program activities comprise only a portion of SAMTD’s overall planning work. SAMTD uses other federal, state, and district funds for planning and management of their programs. For many years, SKATS has provided a portion of their federal surface transportation block grant program funds (STBGP) in the SKATS TIP for the TDM activities that are provided by SAMTD. In addition, STBGP funds in the TIP are currently programmed for transit project development.

Each year SAMTD staff identifies specific Section 5303 public transportation planning tasks that they will accomplish. The work on these specific activities will address to every extent possible FHWA/FTA federal planning emphasis areas (PEAs).

## Planning Work Program Elements

### 1. Long-Range Regional Transit Implementation Plan for Future Transit System Development

#### Background

Year	Plan document or Implementation	Focus and Affects:
2014	<i>Long-Range Regional Transit Plan</i>	Cherriots Regional Long-Term needs identified
2015	<i>Moving Forward</i>	Major changes to routes in the Salem-Keizer Metropolitan area implemented
2016	<i>Regional Transit Plan</i>	Cherriots Regional route changes identified and adopted (change implemented in May 2017)
2017	<i>Adjustments to Moving Forward schedules</i>	Salem-Keizer Metropolitan area routes (implemented in Jan 2017)
Jan-June 2019	<i>Adjustments to Moving Forward schedules (using HB2017 / STIF)</i>	Salem-Keizer Metropolitan area routes
TBD	<i>Long-Range (20+ year) Regional Transit Implementation Plan</i>	Cherriots Salem-Keizer Metropolitan area Long-Term needs identified

Over the last several years, SAMTD have completed a number of long-range transit plans and shorter-range studies for implementation purposes. The table above and descriptions below illustrate these plans and studies.

In 2014, SAMTD completed a *Long-Range Regional Transit Plan* (funded with a TGM grant), that provided an initial examination of the needs for better intercity public transit within Marion

and Polk counties for the next 20 years. That plan included short-term, medium-term, and long-term recommendations. The short-term implementation including a more focused study of refining existing CARTS and other intercity transit services in the region starting in 2014.

In February 2016, a **Regional Transit Plan** was presented to the Board of Directors for SAMTD that made recommendations for service design, route purpose, and overall system construct of regional public transportation services (primarily to CARTS routes) that connect to the Salem-Keizer metropolitan area. The recommended changes are based on providing better service **with existing revenues**. The implementation of this plan began in May of 2017.

The purpose of the 2016 **Regional Transit Plan** was to coordinate with future service changes, as the **Moving Forward** project did on September 8, 2015. Moving Forward addressed service performance issues (primarily of the fixed-route transit routes within the Salem-Keizer urban area) as identified in a comprehensive service analysis that had been conducted in late 2015 through early 2016. Moving Forward was based on providing better service with existing revenues.

#### Activities in FY 2019-2020

For this 2019-20 UPWP the primary transit planning focus will be the development of a **Long-Range Transit Plan**. This plan will be operations specific with a 20 year planning horizon. The plan will focus on community development, transit demand, traffic congestion, greenhouse gas reduction, gap analysis, new technologies, and service development, and will apply to all metropolitan and regional transit services. (While capital investment will be addressed as part of the LRTP at a high level, detailed capital replacement strategies will be covered in a separate Capital Improvement Plan.) Ultimately, this plan will provide a strategic long-range recommendations on how to best meet the long-term public transportation needs of the entire area served by SAMTD. SAMTD staff will coordinate with other jurisdictions and agencies, as appropriate. The development of this plan is contingent upon the successful award of a TGM grant from the 2019 solicitation.

#### Products

- Develop Long Range Transit Plan for SAMTD services over the next 20 years.

## **2. Salem-Keizer Metropolitan Service Planning**

For the 2019-20 UPWP the focus of service planning is the completion and analysis of service expansion enabled by the Statewide Transit Improvement Fund (STIF). These funds will allow SAMTD to increase transit service to the Salem-Keizer area as well as areas served in Marion and Polk counties. The increases will include the addition of Saturday, Sunday, and holiday service. It will also allow for later evening service Monday through Friday. A special fare for youth ages 6 – 18 (5 and under are already free) as part of the requirements of the STIF rules. The planning activities include the development of the service, equity analysis, service performance analysis, and analysis of benefit to low-income and minority populations.

This will be the biggest change in service since the implementation of the Moving Forward service changes in September of 2015. These adjustments were especially to address issues in the area of on-time performance. The most significant changes occurred in January of 2017, and the performance of the current service will continue to be evaluated over the FY 2020 plan year. Critical connections with Cherriots fixed-route service and connections with other

regional transit providers will continue to be monitored and adjusted, as needed, to ensure maximum usefulness of the service.

As in the previous year the MPO area has several land use development projects with the potential to make a significant impact on transit demand in the central area of Salem.

These projects are:

- A significant increase in new development, including growth now taking place at the Mill Creek Corporate Center. This includes a 1,000,000 square foot Amazon shipping and receiving center, and expansions of the Home Depot distribution center. As this area grows it will become a major employment site, and will have a significant increase in both passenger and freight traffic. Providing reliable public transportation to this, and other growing areas of the city will need to be addressed in both the short-range and long-range plans for SAMTD.
- Planning activities are beginning regarding the development of the State Hospital North Campus. Transit staff will continue to monitor, and provide input where appropriate in the development process in this area. In early 2019 land use zoning change processes were started with the city of Salem for development of some of the property.

SAMTD will coordinate with the city of Salem in their current comprehensive plan update process. This process has been named Our Salem and SAMTD to ensure that future planning will take into consideration potential service delivery changes resulting from the recommendations made in the Our Salem project.

#### Objective/Products

- Fully developed service increase plan, and subsequent analysis of the performance of the new service. This analysis will be done both in conjunction with the existing service, and in a separate analysis to track the performance of just the new service.
- Continue to evaluate the impact of changes to public transportation service in the downtown core. This is in relation to some of the goals and objectives that have been expressed by city of Salem staff in the past, and is anticipated to be part of the Our Salem outcomes as well.
- Evaluate applicability of various service designs, such as a downtown trolley or local circulator, in their ability to meet the needs of the downtown business community while integrating with the rest of the system.
- Continuous analysis of service designs against ongoing resources to analyze service sustainability.

## **B. Regionally Significant Project Planning**

### **1. Development of Transit Asset Management (TAM), and System Safety and Security Plan (SSSP)**

As a new requirement under the FAST Act, transit systems are required to develop a TAM and SSSP. The rules have been adopted for the TAM, and performance measures were adopted in January 2017. The SAMTD TAM Plan was adopted by the SAMTD Board of Directors in the fall of 2018. The will be continued monitoring and reporting in regard to the TAM plan throughout the

FY 2020 plan year.

The final rule for the SSSP was published in late 2018 by the Federal Transit Administration (FTA). In the latter part of the 2018-19 UPWP plan year SAMTD has started to develop performance measures for the SSSP. The SSSP will be completed in the 2019-20 UPWP plan year.

#### Objective/Products

- TAM plan performance measure reporting and analysis;
- SSSP performance measure completion;
- SSSP development and completion.

### **2. Evaluation and determination of Connector Service (Flexible Transit Pilot Project)**

SAMTD is beginning the process to explore a wider variety of last mile, or circulator / coverage service delivery options. The transit industry as a whole is shifting its focus away from only considering traditional bus service as the means to provide service to these areas. Consideration of transportation network companies (TNC's), bike share, car share, or connector type service using smaller vehicles still operated by SAMTD or their contractors.

The Connector service, a demand-response public transit service for limited areas, was a SAMTD pilot project started in the summer of June of 2015. This Connector went through a significant level of analysis and multiple adjustments during the pilot phase of the service. Cherriots completed an analysis (*West Salem Connector: Pilot Project Evaluation*) on March 3, 2017 that included ridership tallies, rider experience surveys, costs, efficiency, use, and analysis of alternatives going forward (to either remove or keep the Connector service, or two options for replacing the Connector service with fixed routes). The analysis was provided to a Connector Committee and the Cherriots Executive Team to discuss the pro's and cons of the alternatives. In April 2017, the Cherriots Board of Directors voted to end the pilot and directed staff to explore fixed-route alternatives. Two new fixed routes and one route modification replaced the Connector service on January 2, 2018.

In its research, SAMTD will continue to monitor other similar projects around the country and look for ways that SAMTD could implement a better service model in areas that are currently difficult to serve in the area.

### **3. Develop a formally adopted Intelligent Transportation System (ITS) Plan for SAMTD**

SAMTD completed the ITS Plan in June of 2018. Since that time SAMTD has used the plan to guide the development of the ITS – Comprehensive CAD / AVL RFP that was released in January 2019.

#### Products

- The development of the plan is complete and has now moved to the project phase.

### **C. Transportation Improvement Program (TIP) Development and Maintenance**

The SKATS metropolitan transportation improvement program (MTIP) and the state STIP must include every capital and operating project for which assistance will be requested from FTA or

FHWA. SAMTD is the direct recipient of FTA's urbanized formula grant program funds (49 USC 5307, 5310, 5339, and other new programs under FAST Act), and after consideration of comments and views of the public, prepares the final program of projects (POP). The MPO and the SAMTD have to work cooperatively to develop the TIP and agree on how these funds will be spent, and to meet requirements concerning public participation for the TIP and TIP revisions. To implement this, SAMTD staff will:

- Work with the ODOT, FTA, SKATS staff, and the SKATS Technical Advisory Committee (TAC) in updating and maintaining the 2018-2023 TIP by providing information for any TIP revisions that use FTA or state transit funds or other federal funds used by the transit district.
- Work with the ODOT, FTA, SKATS staff, and the SKATS Technical Advisory Committee (TAC) in developing the 2021-2026 TIP by providing information on projects requesting FTA or state transit funds or other federal funds to be used by the transit district.
- Provide SKATS with descriptions of capital projects and program included in the TIP that are federally funded (including all eligible funds identified in MAP-21) or capital projects funding through ODOT's Public Transit Division.
- Provide information on the status of FTA grants for the annual List of Obligated Projects. **(November 2019)**

#### **D. Continue to Update and Monitor Transit-Related Title VI Civil Rights, Limited English Proficiency (LEP), and Environmental Justice Data Related to Service Changes and Changes in Fares**

Under FTA Circular 4702.1 B TITLE VI REQUIREMENTS AND GUIDELINES FOR FEDERAL TRANSIT ADMINISTRATION RECIPIENTS, increased analysis is required in the event of service reductions and increases in fares. This requires SAMTD staff to maintain current data related to low-income and minority populations in the SAMTD service area.

It is also required that SAMTD update their Title VI Civil Rights Plan every three years. This will occur during the 2019-20 UPWP plan year. When the update is complete the plan will be submitted to FTA for review.

To implement this SAMTD staff will:

- Update the SAMTD Title VI Civil Rights Plan and submit it to FTA for review.
- Maintain current U.S. Census-based data identifying low income and minority populations in the Salem-Keizer area.
- Conduct disparate impact analysis on these populations whenever a significant service reduction or increase in fares is being proposed.
- Conduct an onboard survey to establish baseline demographic profiles of transit riders in the Salem-Keizer metropolitan service area.
- Identify options that mitigate service impacts or major changes resulting in a disparate

impact on minority or low-income populations that may need to be implemented in order to remain in compliance with program requirements.

#### **E. General Regional Planning Coordination/Transportation System Planning**

- SAMTD staff will coordinate and participate in the community's planning and development efforts.
- SAMTD staff will work with local municipalities to review and update the public transit portion of their local area and regional transportation plans.
- SAMTD staff will work with the SKATS and other regional partners on public involvement activities.
- SAMTD will provide transit ridership data to SKATS for purposes of regional planning and for validation of the SKATS travel model.
- SAMTD will coordinate with SKATS on the 2019-2020 UPWP and participate in annual self-certification with FTA/FHWA.

#### **F. Other Transit Planning Work Areas using Federal and State Funding**

The District will be involved in several other work areas throughout the upcoming fiscal year. Many of these areas include continued work implementing the new transportation planning requirements of FAST Act and

the Statewide Transportation Improvement fund (STIF). These activities use federal 5303 planning funds as well as other federal, state, and district funds.

##### Objective/Products

Review and update, as necessary, the Salem-Keizer Title VI Plan (2014), the Salem-Keizer Strategic Plan (2012), and the Salem-Keizer Transit's ADA Plan to ensure continued compliance with new planning regulations under the FAST-Act.

Analysis of the new service for Weekend, Weekday Evenings and Holidays under the STIF.

Review of the current service model of the ADA component to the District's fixed route system and other curb-to-curb transportation programs within the urban growth boundary to determine if other models would improve service delivery and reduce costs. This area will be included in the last mile options analysis.

Continue to support planning efforts that lead to the construction and implementation of:

- Pedestrian connections and curb extensions.
- Parking removal at bus stop locations to remove barriers for access to public transportation.
- Real-time bus arrival information.

- Traffic signal preparation for green extensions and queue jumps for transit.
- Right-of-way needs in preparation for construction and implementation.
- Complete the establishment of the Business Intelligence Database to integrate all internal data collection activities. This project is being brought to a higher priority in 2020.
- Continue the development and refinement of reporting systems allowing accurate and timely reporting of performance data system wide.
- Continue the development and refinement of a system of performance measures to use in service planning and analysis.

## **VIII. ODOT Planning Assistance**

Activities scheduled for ODOT staff include supporting SKATS and other agencies in the region with coordination of their transportation planning process and MPO support in the region. Specific activities include:

1. Coordination of MPO planning activities within ODOT;
2. Policy and technical coordination with SKATS; the cities of Salem, Keizer, and Turner; and Polk and Marion Counties in the development of land use and transportation plans and planning studies;
3. Support the SKATS RTSP amendment and refinement process;
4. Participate in the development and coordination of SKATS TIP and ODOT STIP;
5. Assistance in development of Unified Planning Work Program; and
6. Development and execution of agreements and scopes of work for funding and specific planning projects.

Table 4				
(Updated: April 15, 2019)				
SKATS Planning Funds by Source				
Federal fund type	Federal Funds	State Match	Local Match <sup>(2) (3)</sup>	Total
PL (1) (KN 20489)	\$ 541,595	\$ 61,988		\$ 603,583
STBGP-U (1) (KN 20489)	\$ 505,000	\$ 8,257	\$ 49,543	\$ 562,800
5303 (1) (KN 20489)	\$ 156,795		\$ 17,946	\$ 174,741
<b>Total</b>	<b>\$ 1,203,390</b>	<b>\$ 70,245</b>	<b>\$ 67,489</b>	<b>\$ 1,341,124</b>
(1) Requires a 10.27% match				
(2) Local match for STBGP-U is provided to COG by ODOT, Salem, Keizer, Turner, Marion County, Polk County, Salem-Keizer Transit, and the Salem-Keizer School District. Local match for 5303 provided by Salem-Keizer Transit.				
(3) With the 5303 funds, SKATS executes a pass-through agreement with Salem-Keizer Transit. SKATS uses \$40,000 of the total.				

Table 5						
UPWP Program Budget By Fund Source (Updated: April 15, 2019)					Transit District	
			MWVCOG			
	PL + match	STBGP-U + match	5303 + match	Total	(5303) + match	Total
<b>I Regional Transportation Planning Program</b>

## COOPERATIVE AGREEMENT

### DUTIES AND RESPONSIBILITIES FOR COOPERATIVELY CARRYING OUT TRANSPORTATION PLANNING AND PROGRAMMING

THIS AGREEMENT made and entered into this 6<sup>th</sup> day of April 1987 by and between the State of Oregon by and through its Department of Transportation, hereinafter called "STATE", Mid Willamette Valley Council of Governments, hereinafter called "COG", City of Salem, hereinafter called "SALEM", City of Keizer, hereinafter called "KEIZER", Marion County and Polk County, hereinafter called "MARION" and "POLK", and the Salem Area Transit District, hereinafter called "DISTRICT" all of which are referred to collectively as "PARTIES".

#### W I T N E S S E T H

WHEREAS, the Highway Act of 1973 set forth requirements for Transportation Planning and provided funds for this purpose to Metropolitan Areas of 50,000 population or more to carry out a continuous, comprehensive and cooperative (3C) transportation planning process; and

WHEREAS, STATE, COG, SALEM, KEIZER, MARION, POLK and TRANSIT DISTRICT participate in the "3C" process in the Salem/Keizer Metropolitan Area; and

WHEREAS, the PARTIES desire to update, clarify, and streamline the process;

NOW, THEREFORE, the PARTIES hereto do mutually agree as follows:

Section A. The COG will provide administrative services and, along with STATE, carry out the technical responsibilities for the transportation planning process.

Section B. The Council of Governments shall retain the sole responsibility for acceptance of all contracts, grants and gifts for transportation planning in the Salem area, and all fiscal and financial responsibility therefore. The Director of the COG shall select and supervise the transportation planning coordinator and staff assigned to the transportation planning process.

Section C. The Salem Area Transportation Study (SATS) Coordinating Committee will be renamed the Salem/Keizer Area Transportation Study (SKATS) Policy Committee. Voting membership on the SKATS Policy Committee shall consist of:

1. One member, Marion County Board of Commissioners
2. One member, Polk County Board of Commissioners
3. One member, City of Salem City Council
4. One member, City of Keizer City Council
5. One member, Salem Area Mass Transit District Board of Directors
6. One member, Oregon Department of Transportation
7. One member, School District 24J Board

Section D. The SKATS Policy Committee is responsible for developing Bylaws, operating procedures, transportation plans, transportation improvement programs, and work programs, and to take other actions necessary to carry out the transportation planning process.

Section E. The SKATS Policy Committee shall use the following process in adopting the Transportation Plan and Transportation Improvement Program:

- 1) If the Policy Committee approves the document with a unanimous vote of the Policy Committee members attending a meeting as described in Section F., then the document is adopted.
- 2) If the Policy Committee approves the document with less than a unanimous vote (as described in Section F.) then the document shall be referred to the governing bodies of Marion, Polk, Salem, Keizer, and the District for endorsement. All five jurisdictions must endorse the document for it to be considered adopted. If all five jurisdictions do not endorse the document, they shall individually or through the Policy Committee develop a mutually acceptable proposal which will then be adopted in accordance with paragraphs 1 and 2 of this Section.

A graphic representation of this adoption process is presented in Attachment A.

Section F. The unanimous vote of the Policy Committee members required in Section E. shall meet the following requirements:

- 1) All of the members in attendance must vote in favor of the action.
- 2) All of the members must have been notified of the meeting time, date, and place.

- 3) All of the members must have been notified that the issue was on the meeting agenda prior to the meeting.

Section G. The SKATS Policy Committee has the authority to take final action on all other matters pertaining to the transportation planning process.

Section H. Transportation Planning documents such as the Transportation Plan and the Transportation Improvement Program which have been prepared, adopted, and are currently in effect, will remain in effect until the SKATS Policy Committee adopts new, updated, or revised versions of the documents.

Section I. The SKATS Policy Committee shall review this agreement on or before January, 1992 and every five years thereafter and recommend revisions as desired to the PARTIES. This agreement will remain in effect until revised or replaced by the PARTIES.

Section J. This Agreement supersedes all previous agreements among the respective parties covering the same subject, particularly the Agreement of October 30, 1980 among the State, COG, Salem, Marion, Polk and District; and the October 14, 1980 Joint Resolution between COG and the SATS Coordinating Committee.

IN WITNESS WHEREOF, STATE, COG, SALEM, KEIZER, MARION, POLK and DISTRICT have caused this Agreement to be executed in their respective names by their authorized representatives as of the day set out above.

This Agreement was approved by the Oregon Transportation Commission on March 20, 1987, at which time the Director, Oregon Department of Transportation, was authorized and directed to sign said Agreement for and on behalf of the Commission. Said authority is set forth in Volume 14, Page \_\_\_\_\_, Minute Book of the Oregon Transportation Commission.

May 8, 1987

Mid-Willamette Valley  
Council of Governments  
400 Senator Building  
220 High Street NE  
Salem, OR 97301-3683

Dear Council:

The cities of Salem and Keizer and the counties of Polk and Marion, along with the Salem Area Transit District and the Oregon Transportation Commission, have agreed that the Metropolitan Planning Organization for the Salem-Keizer urbanized area should be the Salem-Keizer Area Transportation Study Policy Committee. I concur with the designation of the new Metropolitan Planning Organization.

The Mid-Willamette Council of Governments will carry out the administrative responsibilities for the new Metropolitan Planning Organization. Funds used to carry out the transportation planning process will be funneled through the Council of Governments and expended under the direction of the Salem-Keizer Area Transportation Study Policy Committee.

Sincerely,

Neil Goldschmidt  
Governor

**AMENDMENT NO. 1  
to the  
COOPERATIVE AGREEMENT**

**DUTIES AND RESPONSIBILITIES FOR COOPERATIVELY  
CARRYING OUT TRANSPORTATION PLANNING AND PROGRAMMING**

THE STATE OF OREGON, by and through its Department of Transportation, THE MID-WILLAMETTE VALLEY COUNCIL OF GOVERNMENTS, THE CITY OF SALEM, THE CITY OF KEIZER, MARION COUNTY, POLK COUNTY, and THE SALEM AREA MASS TRANSIT DISTRICT (referred to collectively as "PARTIES") entered into a cooperative agreement for duties and responsibilities for cooperatively carrying out transportation planning and programming. This Agreement was approved by the Oregon Transportation Commission on March 20, 1987, at which time the Director, Oregon Department of Transportation, was authorized and directed to sign the Agreement for and on behalf of the Commission.

It has now been determined by the "PARTIES" that the agreement referenced above, while remaining in full force and effect, shall be amended by this Amendment No. 1 to add THE CITY OF TURNER as a voting member on the Salem-Keizer Area Transportation Study (SKATS) Policy Committee.

Therefore, the Cooperative Agreement shall be amended as follows:

**Section C of the Cooperative Agreement shall be amended to add subsection 8 to read as follows:**

Section C. The Salem Area Transportation Study (SATS) Coordinating Committee will be renamed the Salem/Keizer Area Transportation Study (SKATS) Policy Committee. Voting membership on the SKATS Policy Committee shall consist of:

1. One member, Marion County Board of Commissioners
2. One member, Polk County Board of Commissioners
3. One member, City of Salem City Council
4. One member, City of Keizer City Council
5. One member, Salem Area Mass Transit District Board of Directors

6. One member, Oregon Department of Transportation
7. One member, School District 24J Board
8. One member, City of Turner City Council

This agreement shall be effective on the date all required signatures are obtained.

**IN WITNESS WHEREOF** the parties hereto have caused this Agreement to be signed in their respective names by their duly authorized representatives as of the dates set forth below.

The Oregon Transportation Commission on January 16, 2002, approved Delegation Order No. 2, which authorizes the Director to approve and execute agreements for day-to-day operations when the work is related to a project included in the Statewide Transportation Improvement Program or a line item in the biennial budget approved by the Commission.

SIGNATURE PAGE TO FOLLOW

On January 31, 2002, the Director of the Oregon Department of Transportation approved Subdelegation Order No. 2, in which the Director grants authority to the Deputy Directors, Division Managers, Chief of Staff, Technical Services Manager/Chief Engineer, Branch and Region Managers for their respective Branch or Region, to approve and execute agreements up to \$75,000 when the work is related to a project included in the Statewide Transportation Improvement Program, other system plans approved by the Commission such as the Traffic Safety Performance Plan, or in a line item in the approved biennial budget.

Subject: SKATS Federal Certification Review

Dear Ms. Clark:

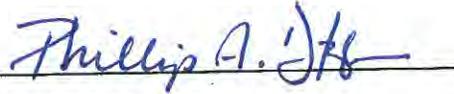

This letter notifies you that the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) jointly certify the planning process for the Salem-Keizer Transportation Management Area (TMA). This certification is based on the findings from the Federal Certification Review conducted on October 12-13, 2016.

The overall conclusion of the Certification Review is that the planning process for the Salem-Keizer TMA complies with the spirit and intent of Federal metropolitan transportation planning laws and regulations under 23 USC 134 and 49 USC 5303, subject the findings in the certification report. The certification report is being finalized and will be issued under separate cover.

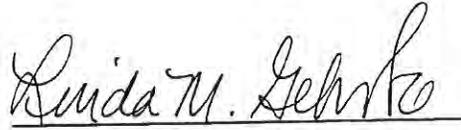

We would like to thank Mike Jaffe and his staff for their time and assistance in planning and conducting the review and public involvement.

If you have any questions regarding this Certification, please direct them to either Ms. Rachael Tupica, Senior Community Planner of the FHWA Oregon Division, at (503) 316-2549 or Mr. Jeremy Borrego, Transportation Program Specialist, of the FTA Region 10, at (206) 220-7956.

Sincerely,

Phillip A. Ditzler

**Appendix C: Status of Salem-Keizer Area Transportation Study 2016 TMA Certification Review Findings (as of April 15, 2019)**

Planning Topic	Findings	Due Date (if applicable)	Planned Actions & Status
	<p><b>Recommendation 1 – Certification Action Team:</b> The Federal review team recommends SKATS staff, SKATS members, FHWA, FTA, ODOT, and SAMTD create a certification review action team which would be responsible for ensuring the successful resolution of corrective actions. Participants would be responsible for:</p> <ul style="list-style-type: none"> <li>• Creating an action plan for addressing corrective actions and recommendations (FHWA can provide a template)</li> <li>• Participate in periodic status update meetings</li> <li>• Provide/receive technical assistance</li> <li>• Review draft processes and documents prior to meetings</li> <li>• Setting other ground rules for the team</li> </ul>		<p>FHWA and SKATS staff have submitted a Plan of Corrective Action (PCA) for the CMP update which was reviewed by the certification team in February 2018 and revised in March 2018. SKATS is sending progress reports to the certification team.</p>
<p>Unified Planning Work Program (UPWP) 23 CFR 450.308</p>	<p><b>Recommendation 2 –UPWP:</b> The Federal review team recommends SKATS make the following improvements to the UPWP:</p> <ul style="list-style-type: none"> <li>• A summary table that details schedule of all work tasks, including key milestones, and scheduled completion dates for the UPWP.</li> <li>• Documentation of the regional transportation issues facing the metropolitan planning area, as identified in the 2015-2035 RTSP, and how the tasks funded in the UPWP address those issues.</li> <li>• A table that identifies the status of all Federally required MPO documents, including:               <ul style="list-style-type: none"> <li>○ Current MPO adoption date,</li> <li>○ Federal approvals/determinations, when appropriate, and</li> <li>○ Scheduled timeframe/deadline for updates which may extend past the timeframe of the UPWP.</li> </ul> </li> </ul>		<p>The information requested in Bullet 1 is included in the UPWP, however not as a summary table.</p> <p>The information requested in Bullet 2 is described in the RTSP and described in the UPWP.</p> <p>The table for bullet #3 was added to the UPWP (see Table 2 of this UPWP)</p>

**Appendix C**

**Appendix C: Status of Salem-Keizer Area Transportation Study 2016 TMA Certification Review Findings (as of April 15, 2019)**

Planning Topic	Findings	Due Date (if applicable)	Planned Actions & Status
Unified Planning Work Program (UPWP) 23 CFR 450.308	<p><b>Recommendation 3 – UPWP:</b> The Federal review team recommends SKATS more consistently and sufficiently document for each UPWP work task:</p> <ul style="list-style-type: none"> <li>• Description of the work to be performed and who will perform the work, as leads or support.</li> <li>• The schedule for completion of the work tasks, including dates of key milestones.</li> <li>• The intended products for discrete work tasks.</li> <li>• Cost estimates provided for each work element, including the source of funding and funding program.</li> </ul>		<p>This UPWP has made the changes recommended by the Certification Review.</p> <p>For the 2019-2020, SKATS made the appropriate changes in the comments submitted in February 2019 by ODOT, FHWA, and FTA .</p>
Metropolitan Transportation Plan (MTP) 23 U.S.C. 134(c),(h)&(i) 23 CFR 450.324	<p><b>Corrective Action 1 – Metropolitan Transportation Plan:</b> By May 31, 2019, with the update of the MTP, SKATS must clearly document an integrated, regional transportation planning process, including all supporting analysis, to meet the requirements of 23 CFR 450.324. The MTP should include documentation on: the clear integration of Federal planning factors; the use of the plan’s vision, goals, objectives, and indicators in the decision-making process; and consultation processes. The plan should also include a more fully developed financial plan and further discussion of the linkage between the CMP and RTSP.</p>	5/31/2019	<p>Work on updating the Metropolitan Transportation Plan (referred to as the Regional Transportation System Plan) started in late 2017; as of April 2019, a draft plan of the 2019-2043 will be ready for public review and comment. Highlights of the updated plan include:</p> <ul style="list-style-type: none"> <li>• Policy Committee and public review and revision to the RTSP’s goals and objectives; (Chapter 3)</li> <li>• A new chapter was added to discuss the needs, gaps, and deficiencies in the transportation system (Chapter 5)</li> <li>• the financial plan (chapter 6) was updated.</li> <li>• the project selection process was revised to better associate the selection of projects with the goals in the plan (see Chapter 7 and Appendix C).</li> </ul>

**Appendix C**

**Appendix C: Status of Salem-Keizer Area Transportation Study 2016 TMA Certification Review Findings (as of April 15, 2019)**

Planning Topic	Findings	Due Date (if applicable)	Planned Actions & Status
			<ul style="list-style-type: none"> <li>• Since the CMP was in process of being updated in Spring of 2019 it was not used directly in the RTSP update, but goals related to system efficiency and alternative modes were used during the project selection process.</li> <li>• The updated consultation process was used in preparation of the plan</li> </ul> <p><b>This Corrective Action is on schedule to be met. The final draft RTSP will go to the Policy Committee in April 2019. After adoption, staff will develop findings (for review by ODOT) for demonstrating that the 2019-2043 RTSP has met the corrective actions.</b></p>
Transportation Improvement Program (TIP) 23 U.S.C. 134(c)(h)& (j) 23 CFR 450.326	<p><b>Corrective Action 2 – TIP:</b> By July 1, 2020, with the update of the next TIP, SKATS must provide clear documentation that adequate funding is available by year to operate and maintain the system and to deliver projects on the schedule proposed in the TIP to meet all financial planning and fiscal constraint requirements identified in 23 CFR 450.326.</p>	7/1/2020	<p>SKATS had a corrective Action in the 2012 Review that required us to demonstrate Fiscal Constraint by year for the FY 2015-2018 MTIP. An analysis showing fiscal constraint was included in the 2015-2018 MTIP and was submitted to FHWA. <b>FHWA accepted the plan and confirmed that we had met the requirement.</b></p> <p>The FY 2018-2023 MTIP was adopted in April 2017 and FHWA had the opportunity to review the document as it was being developed. SKATS requested feedback from on the documentation of the TIP and its financial plan, but FHWA did not respond to SKATS’ request.</p> <p><b>SKATS believes we are complying with financial planning and fiscal constraint requirements to meet this Corrective Action. After discussion with FHWA in early 2019 on the process to get official notice that the</b></p>

**Appendix C**

**Appendix C: Status of Salem-Keizer Area Transportation Study 2016 TMA Certification Review Findings (as of April 15, 2019)**

Planning Topic	Findings	Due Date (if applicable)	Planned Actions & Status
			<p>corrective action has been adequately met, SKATS submitted a letter to ODOT on 3/25/2019 with an official request asking ODOT to determine that SKATS has met the corrective action for the TIP and to schedule a meeting of the certification review action team.</p>
<p>Transportation Improvement Program (TIP) 23 U.S.C. 134(c)(h)&amp; (j) 23 CFR 450.326</p>	<p><b>Recommendation 4 – TIP:</b> The Federal review team recommends SKATS update TIP amendment procedures to clearly distinguish what constitutes full amendments which requires Federal approval, ensuring all changes that affect financial constraint are an amendment.</p>		<p>SKATS – along with ODOT and the other Oregon MPOs – modified and jointly reviewed their amendment procedures in January 2017. Those procedures were incorporated into the TIP document and are being used with all TIP amendments.</p>
<p>Transportation Improvement Program (TIP) 23 U.S.C. 134(c)(h)&amp; (j) 23 CFR 450.326</p>	<p><b>Recommendation 5 – TIP:</b> The Federal review team recommends ODOT work with local road agencies to identify causes of project delays, identify solutions, and provide the oversight necessary to ensure project implementation schedules and cost estimates are realistic, projects are delivered on schedule, and the carry-forward culture is eliminated.</p>		<p>This has been a long-standing issue that has received considerable discussion and attention over the years by all parties. Without going into details, the reasons for project delays are multiple and across all agencies. Efforts to improve project development and reduce delays include:</p> <ul style="list-style-type: none"> <li>• ODOT is making modifications to attempt to reduce the time for completion of IGAs which is one of the significant reasons for project delays.</li> <li>• ODOT also has a Certified User Group that looks for solutions to delays in delivering federal projects by local agencies. ODOT also started the <b>State Funded Local Projects</b></li> </ul>

**Appendix C**

**Appendix C: Status of Salem-Keizer Area Transportation Study 2016 TMA Certification Review Findings (as of April 15, 2019)**

Planning Topic	Findings	Due Date (if applicable)	Planned Actions & Status
			<p>program, which allow exchanging of STP-U and TAP funds for state funds up to \$1 million.</p> <ul style="list-style-type: none"> <li>• ODOT and the 3 TMAs in Oregon are developing a proposal to set the obligation rate targets of federal funds used in MPO TIPs.</li> <li>• Lastly, SKATS has increased its coordination with the local agencies and ODOT Region 2 Local Agency Liaisons in the effort to more consistently delivery project in a timely matter.</li> </ul>
<p>Transportation Improvement Program (TIP) 23 U.S.C. 134(c)(h)&amp; (j) 23 CFR 450.326</p>	<p><b>Recommendation 6 – TIP:</b> The Federal review team recommends ODOT work with all Oregon MPOs to cooperatively create a consistent statewide TIP financial planning process and format to demonstrate financial constraint by year.</p>		<p>Oregon MPO Consortium (OMPOC) has a committee to determine ways to better integrate the information in the ODOT STIP and MPO TIPs. In April, a RFP was developed by the committed information regarding development of a multi-agency Transportation Improvement Program (TIP) data platform that would allow participating agencies to manage their TIPs in a consistent and efficient format</p> <p>SKATS has worked with ODOT to develop a table that demonstrates financial constraint similar to the format used by ODOT.</p> <p>SKATS reviews ODOT’s Financial Plan every month for accuracy and works with ODOT as corrections are needed.</p>

**Appendix C**

**Appendix C: Status of Salem-Keizer Area Transportation Study 2016 TMA Certification Review Findings (as of April 15, 2019)**

Planning Topic	Findings	Due Date (if applicable)	Planned Actions & Status
Transportation Improvement Program (TIP) 23 U.S.C. 134(c)(h)& (j) 23 CFR 450.326	<p><b>Commendation 1 – TIP:</b> The Federal review team commends SKATS for implementing a TIP project prioritization process that addresses consistency with local transportation systems plans, regional MTP goals and objectives, and begins to address project readiness.</p>		None needed.
Congestion Management Process (CMP) 23 U.S.C. 134(k)(3) 23 CFR 450.322	<p><b>Corrective Action 3 – CMP:</b> By May 31, 2019, with the update of the MTP, SKATS must make the following improvements to the congestion management process to meet the requirements of 23 CFR 450.322:</p> <ul style="list-style-type: none"> <li>• Congestion management objectives,</li> <li>• Evaluation of alternative strategies,</li> <li>• Evaluation of the effectiveness of congestion reduction strategies with established performance measures, and</li> <li>• Evaluation of the efficiency and effectiveness of implemented actions.</li> </ul>	5/31/2019	<p>We are working on this on two tracks:</p> <ol style="list-style-type: none"> <li>1. <b>Data</b> – Staff continues to use and evaluating data sources for measuring congestion. We have been using ODOT’s iPEMs analytical package of the HERE data and continue to communicate with ODOT on the need to either keep iPEMs on a long term basis or determine which other package will be retained long-term.</li> </ol> <p>In addition, SKATS has provide funding for the purchase and installation by the city of Salem of BlueTooth equipment on a subset of the CMP corridors.</p> <ol style="list-style-type: none"> <li>2. <b>Analysis and Planning</b> – determining which kinds of analysis approaches will be effective with the Congestion Management Program. (This would be the highest priority task for assistance from FHWA – see recommendation #1)</li> </ol> <p>In November 2018 SKATS hosted a workshop with three peer MPOs from across the country to learn how they implemented their CMPs. Information from that workshop is being used to guide the development of the update to the CMP.</p>

**Appendix C**

**Appendix C: Status of Salem-Keizer Area Transportation Study 2016 TMA Certification Review Findings (as of April 15, 2019)**

Planning Topic	Findings	Due Date (if applicable)	Planned Actions & Status
			<p>SKATS has started a discussion working group comprised of TAC members plus domain expert staff that are involved in day-to-day efforts of addressing congestion (e.g. staff from Cherriots Trip Choice and the Regional Traffic Signal Control Center). The group is working through each of the findings to provide feedback to staff during the update to the SKATS CMP.</p> <p><b>Due to the complexities mentioned, SKATS is making progress on meeting the due date for a first iteration of the CMP update, but additional improvements are likely to be completed beyond the due date.</b></p>
<p>Congestion Management Process (CMP) 23 U.S.C. 134(k)(3) 23 CFR 450.322</p>	<p><b>Recommendation 7 – CMP:</b> The Federal review team recommends SKATS make the following improvements to the CMP:</p> <ul style="list-style-type: none"> <li>• Documentation of the regional and corridor level congestion management processes and analyses.</li> <li>• More fully develop the multimodal transportation system performance measures so that they include other modes besides transit and automobiles, and that they more fully integrate into the CMP-MTP process.</li> <li>• Identification of non-recurring congestion and strategies to address, possibly using crash data.</li> <li>• Identify any additional linkages to ITS technologies as related to the regional ITS Architecture.</li> <li>• Further develop the identified transportation projects section for each corridor into an implementation activity list with a complementary schedule.</li> <li>• Enhance the documentation of the feasibility and effectiveness of alternative strategies (i.e., TDM, operations, bike/pedestrian,</li> </ul>		<p>See related response to Corrective Action 3</p>

**Appendix C**

**Appendix C: Status of Salem-Keizer Area Transportation Study 2016 TMA Certification Review Findings (as of April 15, 2019)**

Planning Topic	Findings	Due Date (if applicable)	Planned Actions & Status
	etc.) selected for implementation in major corridors where significant capacity additions are planned or programmed.		
Congestion Management Process (CMP) 23 U.S.C. 134(k)(3) 23 CFR 450.322	<b>Recommendation 8 – CMP:</b> The federal review team recommends SKATS continue to utilize the ROCR to meet the CMP requirement for system evaluation and monitoring, and document how, when, and where the data and analysis in the ROCR applies to the congestion management process. The Federal review team also recommends SKATS identify reliable data collection and system performance monitoring methods to define the extent and duration of congestion and to help determine the causes of congestion.		As mentioned above, SKATS staff is in the process of evaluating the usefulness of the ROCR, particularly for the CMP.  As mentioned above, SKATS is working with ODOT and city of Salem on the future collection of data. Determining which data set to use going forward has been challenging, as either the data may be either unavailable in the future (e.g. ODOT’s subscription to HERE data) or requires developing methods to store, process and analyze (NPMRDS). We have also invested in BlueTooth equipment for collecting data.
Public Participation 23 U.S.C. 134(i)(6) 23 CFR 450.316 & 450.326(b)	<b>Corrective Action 4 – Public Participation:</b> By December 31, 2017, prior to the next MTP update, SKATS shall update the PPP to meet all requirements of 23 CFR 450.316 and 326(b), including: <ul style="list-style-type: none"> <li>• Identification of key decision points where the MPO requests public comment and explicit procedures for outreach at these milestones.</li> <li>• Inclusion of a disposition of comments with major federal planning documents.</li> <li>• Specific outreach strategies to engage traditionally underserved populations.</li> <li>• Criteria or process to evaluate the effectiveness of outreach processes.</li> <li>• In each major planning document, a demonstration of how the explicit processes and procedures identified in the PPP were</li> </ul>	12/31/2017	SKATS updated its Public Participation Plan (PPP) twice in 2017. The May 2017 update included changes to reflect the process SKATS will use for amendments to the Transportation Improvement Program (TIP). The update in November 2017 was in response to the TMA Certification Review Corrective Action #4. The adopted PPP identifies key decision points for public comment and outreach; the dispositions of comments (used for both the PPP and the TIP in 2017 and 2018) and the other bullet points in Correction Action 4.  <b>FHWA/FTA send an e-mail to SKATS on 8/29/18 that the SKATS PPP meets the corrective action.</b>

**Appendix C**

**Appendix C: Status of Salem-Keizer Area Transportation Study 2016 TMA Certification Review Findings (as of April 15, 2019)**

Planning Topic	Findings	Due Date (if applicable)	Planned Actions & Status
	followed and a summary that characterizes the extent to which public comments influenced MTP and TIP development.		
Public Participation 23 U.S.C. 134(i)(6) 23 CFR 450.316 & 450.326(b)	<b>Recommendation 9 – Public Participation Plan:</b> The Federal review team recommends SKATS add instructions to the PPP on how the public can become one of the selected members to sit on the Citizens Advisory Committee if one is established.		As of 2018, the Policy Committee has not indicated the desire to establish a citizen advisory committee but has supported enhanced citizen outreach for planning.
Consultation 23 U.S.C. 134(g) & (i) 23 CFR 450.316(b-e), 23 CFR 450.324(g)(10) and 23 CFR 450.324(h)	<b>Corrective Action 5 – Consultation:</b> By December 31, 2017, SKATS shall develop and document a formal consultation process for the MPO to meet all requirements in 23 CFR 450.316(b-e), 23 CFR 450.324(g)(10), and in 23 CFR 450.324(h).	12/31/2017	On December 26, 2017, SKATS submitted a formal Consultation Process Document (“Consultation Process for use During Development of the SKATS RTSP and TIP”) to FHWA and FTA. Based on agency comments, SKATS updated the document and sent the revised draft to FHWA/FTA on 12/12/2018 is waiting for any additional comments and/or FTA/FHWA approval.  <b>Subject to any revisions recommended by FHWA &amp; FTA, SKATS believes we are meeting this Corrective Action and waiting on final approval.</b>
Environmental Justice Executive Order #12898 and 23 CFR 450.316(a)(1)(vii)	<b>Recommendation 10 – Environmental Justice:</b> The Federal review team recommends SKATS improve Environmental Justice (EJ) analysis by: <ul style="list-style-type: none"> <li>• Collaborating with community groups and agencies that work with EJ populations, including local transit providers, to collect feedback on criteria and threshold for identifying EJ population locations, outreach strategies, and to begin building relationships with EJ populations.</li> <li>• Providing separate maps of individual EJ minority populations and an aggregated EJ population map, to better demonstrate</li> </ul>		For the FY2018-2021 TIP update (adopted in April 2017), Chapter 9 describes the activities used for outreach to EJ populations and the environmental justice analysis. Table 13 in Chapter 9 has ACS data for 2010-2014 that show that 31% of the SKATS area population are minorities or Hispanic, as well as identifying all other minority populations. Outreach added 35 more community organizations, churches, schools/training

## Appendix D

### Title VI and Executive Order 12898 Comparison

<u>Aspects of the Authorities</u>	<u>Title VI of the Civil Rights Act of 1964</u>	<u>Executive Order 12898</u>
What is the authority?	Title VI is a federal statute enacted as part of the Civil Rights Act of 1964.	E.O. 12898 is a Presidential executive order signed in 1994. It is not a statute or law.
What does it say?	<p>Title VI prohibits discrimination on the basis of <b><u>race, color, and national origin</u></b> in programs and activities receiving federal financial assistance.</p> <p>Title VI itself prohibits intentional discrimination, and most funding agencies have regulations implementing Title VI that prohibit recipient practices that have the effect of discriminating on the basis of race, color, or national origin.</p>	E.O. 12898 directs all Federal agencies to “make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations.”
What is the purpose?	Title VI was designed to ensure that federal funds are not being used for discriminatory purposes.	E.O. 12898 was issued to focus federal attention on the environmental and human health conditions in minority and low-income communities; to promote nondiscrimination in federal programs substantially affecting human health and the environment; and to provide minority and low-income communities’ access to public information on, and an opportunity for public participation in, matters relating to human health or the environment.
Who is covered?	Title VI applies to recipients of federal financial assistance.	E.O. 12898 applies to designated Federal agencies. (E.O. 12898 Section 6-604, see also 2011 Memorandum of Agreement on Environmental Justice)

<u>Aspects of the Authorities</u>	<u>Title VI of the Civil Rights Act of 1964</u>	<u>Executive Order 12898</u>
<p>What is required?</p>	<p>Title VI requires federal agencies to monitor their recipients and ensure their compliance with Title VI.</p> <p>Title VI requires recipients of federal financial assistance to not discriminate on the basis of race, color, or national origin.</p>	<p>E.O. 12898 requires Federal agencies to create environmental justice strategies. Pursuant to the 2011 Memorandum of Agreement on Environmental Justice entered into by 17 Federal agencies, those agencies agreed to issue an annual implementation progress report on environmental justice.</p>
<p>How is it enforced?</p>	<p>Individuals alleging <u>intentional</u> discrimination may file suit in federal court or a complaint with the federal agency providing funds for the program or activity at issue.</p> <p>If a program or activity has a <u>discriminatory effect</u>, individuals may file an administrative complaint with the federal funding agency. An individual <u>cannot</u> file a suit in federal court to address discriminatory impacts of a recipient's activities.</p> <p>Additionally, federal agencies have the authority to conduct compliance reviews of recipients to ensure their activities do not violate Title VI.</p>	<p>E.O. 12898 is not enforceable in the courts and it does not create any rights, benefits, or trust responsibilities enforceable against the United States.</p> <p>While the E.O. 12898 is not enforceable against the United States, it is a Presidential order that requires each Federal agency to “conduct its programs, policies, and activities that substantially affect human health or the environment, in a manner that ensures that such programs, policies, and activities do not have the effect of excluding persons ... from participation in, denying persons...the benefits of, or subjecting persons...to discrimination under, such programs, policies, and activities, because of their race, color, or national origin.”</p> <p>Therefore, to accomplish the goals of E.O. 12898, a Federal agency may implement policies that affect their funding activity. Agencies may also utilize their authority under various laws such as the Clean Air Act, National Environmental Policy Act, and the Fair Housing Act to achieve the goals of the Executive Order.</p>

US Environmental Protection Agency, Office of Environmental Justice  
April 3, 2014

### *How do the Executive Order and Title VI overlap?*

The Presidential Memorandum accompanying EO 12898 states, in part:

“I am therefore today directing that all department and agency heads take appropriate and necessary steps to ensure that the following specific directives are implemented immediately: In accordance with Title VI of the Civil Rights Act of 1964, each Federal agency shall ensure that all programs or activities receiving Federal financial assistance that affect human health or the environment do not directly, or through contractual or other arrangements, use criteria, methods, or practices that discriminate on the basis of race, color, or national origin.”

Agencies’ Title VI enforcement and compliance authority includes the authority to ensure the activities they fund that affect human health and the environment, do not discriminate on the basis of race, color, or national origin. Therefore, agencies can use their Title VI authority, when appropriate, to address environmental justice concerns.

## Appendix E

ODOT/MPO/Public Transportation Provider  
Agreement No. 32794

**INTERGOVERNMENTAL AGREEMENT**  
**ODOT/MPO/Public Transportation Providers Agreement**  
**Metropolitan Planning, Financial Plans and Obligated Project Lists**  
Salem-Keizer Area Transportation Study  
Salem Area Mass Transit District

**THIS AGREEMENT** is made and entered into by and between the STATE OF OREGON, acting by and through its Department of Transportation, hereinafter referred to as "ODOT;" the SALEM-KEIZER AREA TRANSPORTATION STUDY is the designated Metropolitan Planning Organization for the Salem-Keizer area, acting by and through its MID-WILLAMETTE VALLEY COUNCIL OF GOVERNMENTS, hereinafter referred to as "MPO;" and SALEM AREA MASS TRANSIT DISTRICT acting by and through its Board of Directors, hereinafter referred to as "Public Transportation Provider," all herein referred to individually as "Party" and collectively as "Parties."

### RECITALS

1. By the authority granted in Oregon Revised Statute (ORS) [190.110](#), state agencies may enter into agreements with units of local government for the performance of any or all functions and activities that a party to the agreement, its officers, or agents have the authority to perform.
2. Intergovernmental agreements defining roles and responsibilities for transportation planning between ODOT, the Metropolitan Planning Organization for an area, and the public transportation provider for the area are required by 23 U.S.C. 134 and 23 CFR 450.314."
3. MPO is an ORS 190 intergovernmental organization consisting of representatives of the following jurisdictions and agencies from the City of Salem, City of Keizer, City of Turner, Marion County, Polk County, Salem-Keizer School District, MPO, and ODOT, and designated in April, 1974 by the Governor of Oregon as the MPO for the Salem-Keizer-Turner Area.
4. MPO is a recipient of Federal Highway Administration (FHWA) Planning (PL) funds and Federal Transit Administration (FTA) Section 5303 funds. ODOT's Annual State Fiscal Year Unified Planning Work Program Agreement and any Project Specific Agreements are separate agreements with specific deliverables and funding that remain in effect and are not in any way modified by this Agreement.
5. MPO is responsible for complying with the Metropolitan Planning requirements of 23 CFR 450 and 49 CFR 613 for the development of transportation plans, transportation improvement programs, work programs, and all other actions necessary to carry out the metropolitan transportation planning process. A decision must be made by the MPO Policy Board using the procedures established to adopt the Metropolitan Transportation Plan (MTP) and the Transportation Improvement Program (TIP). In order to be implemented, the recommendations of all other regionally significant transportation planning efforts need to be incorporated into the MTP and TIP. Therefore, it is the general policy of MPO that transportation planning products

be developed with the goal of obtaining support from the MPO Policy Board. This general approach requires a high level of communication between all of the MPO participants.

6. Public Transportation Provider is the designated recipient of the FTA Section 5307 Program (49 U.S.C. 5307) funds in the MPO area. The designated recipients are the public bodies with the legal authority to receive and dispense these federal funds.

**NOW THEREFORE**, the premises being in general as stated in the foregoing Recitals, it is agreed by and between the Parties hereto as follows:

### **SECTION 1. TERMS OF AGREEMENT**

1. Pursuant to the authority above, ODOT, MPO, and Public Transportation Provider agree to define roles and responsibilities in carrying out the metropolitan transportation planning and metropolitan transportation financial planning processes, as further described in the Statement of Work, marked "Exhibit A," attached hereto and by this reference made a part hereof.
2. This Agreement only addresses roles and responsibilities, and does not address funding. Each party shall be responsible for funding their own duties and obligations under this Agreement. The Parties may choose to enter into additional agreement(s) detailing deliverables and funding for the specific projects identified in Exhibit A.
3. The term of this Agreement shall begin on the date all required signatures are obtained. The work identified in Section 1, Paragraph 1 shall be completed no later than December 31, 2024, on which date this Agreement terminates unless extended by an executed agreement.
4. This Agreement may be revisited as needed, including upon adoption of any new Federal Transportation Authorization, and will be reviewed upon commencement of the MPO recertification or self-certification process. If the Parties determine there is a need to add or revise the roles and responsibilities, the Parties will enter into an amendment to this Agreement.

### **SECTION 2. ODOT OBLIGATIONS**

1. ODOT will fulfill its stewardship obligations to FHWA by providing oversight of the MPO to ensure that the MPO carries out its federal duties in a manner that complies with 23 U.S.C. 106(g).
2. ODOT will engage the other Parties to this Agreement in its transportation planning processes, including financial planning processes, ("Processes") and planning products ("Products"), as identified in "Exhibit A." Where ODOT is the lead agency for a Process or Product, it will be responsible for pursuing communication with the other Parties as agreed. ODOT will communicate early and in good faith, such that affected Parties have the opportunity to influence the final outcome or decisions.
3. Where ODOT is a party of interest, as identified in Exhibit A, to a Process or Product, it will participate in the development of the Process or Product as specified in this Agreement. ODOT

will offer information and opinions such that the lead agency and other participants have the opportunity to understand its positions, concerns, conflicts, and any likely objections to proposed outcomes.

4. ODOT, in cooperation with the MPO and the Public Transportation Provider, will establish and conduct a continuous, cooperative, and comprehensive transportation planning process in the development of projects, Processes, Products, and programs that address the required federal planning factors and 23 CFR 450.
5. ODOT's Project Manager for this Agreement is Dan Fricke, MPO Liaison Planner, ODOT Region 2, 455 Airport Road SE, Bldg. B, Salem, Oregon 97301-5395; phone (503) 986-2663; email: [daniel.l.fricke@odot.state.or.us](mailto:daniel.l.fricke@odot.state.or.us) or assigned designee upon individual's absence. ODOT shall notify the other Parties in writing of any contact information changes during the term of this Agreement.

### **SECTION 3. MPO OBLIGATIONS**

1. MPO will engage the other Parties to this Agreement in its Processes and Products as identified in Exhibit A. Where MPO is the lead agency for a Process or Product, it will be responsible for pursuing communication with the other Parties as agreed. MPO will communicate early and in good faith, such that affected Parties have the opportunity to influence the final outcome or decisions.
2. Where MPO is a party of interest, as identified in Exhibit A, to a Process or Product, it will participate in the development of the Process or Product as specified in this Agreement. MPO will offer information and opinions such that the lead agency and other participants have the opportunity to understand its positions, concerns, conflicts, and any likely objections to proposed outcomes.
3. MPO, in cooperation with ODOT and the Public Transportation Provider, will establish and conduct a continuous, cooperative, and comprehensive transportation planning process in the projects, Processes, Products, and programs that address the required federal planning factors and 23 CFR 450.
4. MPO will work with Public Transportation Provider and local agencies to provide a yearly report of obligated projects each October.
5. MPO's Project Manager for this Agreement is Michael Jaffe, Transportation Planning Director, MPO, 100 High Street SE, Suite 200, Salem, Oregon 97391-3667; phone: (503) 540-1606; email: [mjaffe@mwvcog.org](mailto:mjaffe@mwvcog.org), or assigned designee upon individual's absence. MPO shall notify the other Parties in writing of any contact information changes during the term of this Agreement.

### **SECTION 4. PUBLIC TRANSPORTATION PROVIDER OBLIGATIONS**

1. Public Transportation Provider will engage the other Parties to this Agreement in its Processes and Products as identified in Exhibit A. Where Public Transportation Provider is

the lead agency for a Process or Product, it will be responsible for pursuing communication with the other Parties as agreed. Public Transportation Provider will communicate early and in good faith, such that affected Parties have the opportunity to influence the final outcome or decisions.

2. Where Public Transportation Provider is a party of interest, as identified in Exhibit A, to a Process or Product, it will participate in the development of the Process or Product or the financial planning process as specified in this Agreement. Public Transportation Provider will offer information and opinions such that the lead agency and other participants have the opportunity to understand its positions, concerns, conflicts, and any likely objections to proposed outcomes.
3. Public Transportation Provider, in cooperation with ODOT and the MPO will establish and conduct a continuous, cooperative, and comprehensive transportation planning process in the development of projects, Processes, Products, and programs that address the required federal planning factors and 23 CFR 450.
4. Public Transportation Provider will provide a yearly report of obligated FTA projects to MPO and ODOT each October.
5. Public Transportation Provider's Project Manager for this Agreement is Stephen Dickey, Director, Transportation Development Division, 555 Court Street NE, Suite 5230, Salem, Oregon 97301; phone: (503) 588-2424; email: [Steve.dickey@cherriots.org](mailto:Steve.dickey@cherriots.org), or assigned designee upon individual's absence. Public Transportation Provider shall notify the other Parties in writing of any contact information changes during the term of this Agreement.

## **SECTION 5. GENERAL PROVISIONS**

1. This Agreement may be terminated by mutual written consent of all Parties.
2. ODOT may terminate this Agreement effective upon delivery of written notice to MPO and Public Transportation Provider, or at such later date as may be established by ODOT, under any of the following conditions:
  - a. If MPO or Public Transportation Provider fails to provide services called for by this Agreement within the time specified herein or any extension thereof.
  - b. If MPO or Public Transportation Provider fails to perform any of the other provisions of this Agreement or so fails to pursue the work as to endanger performance of this Agreement in accordance with its terms, and after receipt of written notice from ODOT fails to correct such failures within ten (10) days or such longer period as ODOT may authorize.
  - c. If ODOT fails to receive funding, appropriations, limitations or other expenditure authority sufficient to allow ODOT, in the exercise of its reasonable administrative discretion, to continue to fund performance of this Agreement.
  - d. If federal or state laws, regulations or guidelines are modified or interpreted in such a way that either the work under this Agreement is prohibited or if ODOT is prohibited from paying for such work from the planned funding source.

3. Any termination of this Agreement shall not prejudice any rights or obligations accrued to the Parties prior to termination.
4. If any third party makes any claim or brings any action, suit or proceeding alleging a tort as now or hereafter defined in ORS 30.260 ("Third Party Claim") against a Party with respect to which any other Party may have liability, the notified Party must promptly notify the other Parties in writing of the Third Party Claim and deliver to the other Parties a copy of the claim, process, and all legal pleadings with respect to the Third Party Claim. Each Party is entitled to participate in the defense of a Third Party Claim, and to defend a Third Party Claim with counsel of its own choosing. Receipt by a Party of the notice and copies required in this paragraph and meaningful opportunity for the Party to participate in the investigation, defense and settlement of the Third Party Claim with counsel of its own choosing are conditions precedent to that Party's liability with respect to the Third Party Claim.
5. With respect to a Third Party Claim for which ODOT is jointly liable with MPO or Public Transportation Provider (or would be if joined in the Third Party Claim), ODOT shall contribute to the amount of expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred and paid or payable by MPO or Public Transportation Provider in such proportion as is appropriate to reflect the relative fault of ODOT on the one hand and of MPO and Public Transportation Provider on the other hand in connection with the events which resulted in such expenses, judgments, fines or settlement amounts, as well as any other relevant equitable considerations. The relative fault of ODOT on the one hand and of MPO and Public Transportation Provider on the other hand shall be determined by reference to, among other things, the Parties' relative intent, knowledge, access to information and opportunity to correct or prevent the circumstances resulting in such expenses, judgments, fines or settlement amounts. ODOT's contribution amount in any instance is capped to the same extent it would have been capped under Oregon law, including the Oregon Tort Claims Act, ORS 30.260 to 30.300, if ODOT had sole liability in the proceeding.
6. With respect to a Third Party Claim for which MPO or Public Transportation Provider is jointly liable with ODOT (or would be if joined in the Third Party Claim), MPO and Public Transportation Provider shall contribute to the amount of expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonable incurred and paid or payable by ODOT in such proportion as is appropriate to reflect the relative fault of MPO and Public Transportation Provider on the one hand and of ODOT on the other hand in connection with the events which resulted in such expenses, judgements, fines or settlement amounts, as well as any other relevant equitable considerations. The relative fault of MPO and Public Transportation Provider on the one hand and ODOT on the other hand shall be determined by reference to, among other things, the Parties' relative intent, knowledge, access to information and opportunity to correct or prevent the circumstances resulting in such expenses, judgments, fines, or settlement amounts. MPO's and Public Transportation Provider's contribution amount(s) in any instance is capped to the same extent it would have been capped under Oregon law, including the Oregon Tort Claims Act, ORS 30.260 to 30.300, if it had sole liability in the proceeding.

7. The Parties shall comply with all federal, state, and local laws, regulations, executive orders and ordinances applicable to the work under this Agreement, including, without limitation, the provisions of ORS 279B.220, 279B.225, 279B.230, 279B.235 and 279B.270 incorporated herein by reference and made a part hereof. Without limiting the generality of the foregoing, the Parties expressly agrees to comply with (i) Title VI of Civil Rights Act of 1964; (ii) Title V and Section 504 of the Rehabilitation Act of 1973; (iii) ORS 659A.142 and the Americans with Disabilities Act of 1990 as Amended by the ADA Amendments Act of 2008; (iv) all regulations and administrative rules established pursuant to the foregoing laws; and (v) all other applicable requirements of federal and state civil rights and rehabilitation statutes, rules and regulations. In addition, MPO and Public Transit Provider expressly agrees to comply with 23 CFR 420.121(g) and 49 CFR Part 20 regarding lobbying restrictions on influencing certain Federal activities, which are applicable to all tiers of recipients of FHWA and FTA planning and research funds.
8. Each Party shall ensure that its activities under this Agreement comply with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 as amended by the ADA Amendments Act of 2008 (together, "ADA"). The Parties agree that all Processes, Products, and projects identified in Exhibit A shall be ADA-compliant, and that all options and alternatives evaluated as part of such Processes, Products, and projects shall meet ADA requirements. MPO and Public Transportation Provider agree to ensure that each of its planners responsible for carrying out activities under this Agreement attend at least one ADA-related ODOT training course within two years of the effective date of this Agreement.
9. If MPO or Public Transportation Provider fails to comply with the requirements of this Agreement or the underlying federal laws or regulations, ODOT may:
  - a. Withhold approvals related to the Process or Products identified in Exhibit A until MPO or Public Transportation Provider comes into compliance, and
  - b. Determine that MPO or Public Transportation Provider is ineligible to receive or apply for Title 23, United States Code funds until ODOT receives full reimbursement of any costs incurred.
10. All employers, including MPO and Public Transportation Provider, that employ subject workers who work under this Agreement in the State of Oregon shall comply with ORS 656.017 and provide the required Workers' Compensation coverage unless such employers are exempt under ORS 656.126. Employers Liability insurance with coverage limits of not less than \$500,000 must be included. MPO and Public Transportation Provider shall ensure that each of their subcontractors complies with these requirements.
11. MPO and Public Transportation Provider acknowledge and agree that ODOT, the Oregon Secretary of State's Office, the federal government, and their duly authorized representatives shall have access to the books, documents, papers, and records of MPO and Public Transportation Provider which are directly pertinent to this specific Agreement for the purpose of making audit, examination, excerpts, and transcripts for a period of six (6) years after expiration of this Agreement. Copies of applicable records shall be made available upon request. Payment for costs of copies is reimbursable by ODOT.

12. The Parties shall attempt in good faith to resolve any dispute arising out of this Agreement. In addition, the Parties may agree to utilize a jointly selected mediator or arbitrator (for non-binding arbitration) to resolve the dispute short of litigation.
13. The Parties certify and represent that the individual(s) signing this Agreement has been authorized to enter into and execute this Agreement on behalf of their Party, under the direction or approval of its governing body, commission, board, officers, members or representatives, and to legally bind the Party.
14. This Agreement may be executed in several counterparts (facsimile or otherwise) all of which when taken together shall constitute one agreement binding on all Parties, notwithstanding that all Parties are not signatories to the same counterpart. Each copy of this Agreement so executed shall constitute an original.
15. This Agreement and attached exhibits constitute the entire agreement between the Parties on the subject matter hereof. There are no understandings, agreements, or representations, oral or written, not specified herein regarding this Agreement. No waiver, consent, modification or change of terms of this Agreement shall bind either Party unless in writing and signed by both Parties and all necessary approvals have been obtained. Such waiver, consent, modification or change, if made, shall be effective only in the specific instance and for the specific purpose given. The failure of ODOT to enforce any provision of this Agreement shall not constitute a waiver by ODOT of that or any other provision.

This portion of page intentionally left blank.

THE PARTIES, by execution of this Agreement, hereby acknowledge that their signing representatives have read this Agreement, understand it, and agree to be bound by its terms and conditions.

## EXHIBIT A STATEMENT OF WORK

**SECTION I. ACRONYMS** – These acronyms used in Exhibit A are common to financial plan and obligated projects development and maintenance processes, and are defined as follows:

- FHWA:** Federal Highway Administration
- FMIS:** Federal Management Information System
- FTA:** Federal Transit Administration
- MPO:** Metropolitan Planning Organization
- ODOT:** Oregon Department of Transportation
- RPTD:** ODOT Rail & Public Transit Division

**SECTION II. DEFINITIONS** – The following definitions apply to this Agreement specifically and shall not be construed to apply to any other agreement between any of the Parties.

- a. **Air Quality Conformity:** A clean Air Act requirement that ensures Federal funding and approval are given to transportation plan, programs and projects that are consistent with the air quality goals established by a State Implementation Plan (SIP). Applicable to MPOs in designated nonattainment or maintenance areas as defined in 23 CFR 450.104.
- b. **Congestion Management Process (CMP):** A systematic approach that provides for effective management and operation, based on a cooperatively developed and implemented metropolitan-wide strategy, of new and existing transportation facilities eligible for funding under title 23 U.S.C. and title 49 U.S.C. through the use of travel demand reduction and operational management strategies required by TMAs only.
- c. **Consider:** Take into account opinions and relevant information from other Parties in making a decision. Receive the information or comments, acknowledge such, and document the acknowledgement. Those receiving comments are not bound by the opinions or information received.
- d. **Consult:** Confer with other identified Parties in accordance with all applicable established processes; consider the views of other Parties prior to taking action, inform other Parties about action taken in accordance with established process. This communication should be timely, and ahead of decisions. Those receiving comments are not bound by the opinions or information received.
- e. **Cooperate and Collaborate:** Parties involved work together to achieve a common goal or objective. Cooperation or collaboration are often employed where multiple Parties have a

vested interest in the outcome and may involve a shared project or policy outcome. Parties may share expertise, resources, etc., to accomplish the goal.

- f. **Coordinate:** Develop plans, programs, and schedules cooperatively among agencies and entities with legal standing and adjustment of such plans, programs, and schedules to achieve general consistency, as appropriate. Coordinated projects are usually those for which all Parties, other than the lead agency, do not have a vested interest and are often a specific projects rather than policy outcomes. The lead agency is the project proponent and the other Parties are not deeply involved. The lead agency is expected to consult with the others to ensure efficiencies are utilized and conflicts are avoided. Parties with legal standing should be involved in the coordination and Parties should operate in good faith.
- g. **Financially Constrained or Fiscal Constraint:** The MTP, TIP, and STIP demonstrate sufficient financial information and can be implemented using committed, available, or reasonably available revenue sources, with reasonable assurance that the transportation system is being adequately operated and maintained. For the TIP and the STIP, financial constraint/fiscal constraint applies to each program year. Additionally, projects in the air quality nonattainment and maintenance areas can be included in the first two (2) years of the TIP and STIP only if funds are “available” or “committed.”
- h. **Financial Plan:** The required documentation included with both the MTP and TIP (and optional for the long-range statewide transportation plan and STIP) that demonstrates the consistency between reasonably available and projected sources of federal, state, local, and private revenues and the costs of implementing proposed transportation system improvements.
- i. **Illustrative Project:** An additional transportation project that may (but is not required to) be included in a Financial Plan for a MTP, TIP, or STIP if reasonable additional resources were to become available.
- j. **Indian Tribal Government:** Duly formed governing body for an Indian or Alaska Native tribe, band, nation, pueblo, village, or community that the Secretary of the Interior acknowledges to exist as an Indian Tribe pursuant to the federally recognized Indian Tribe List Act of 1994, Public Law 103-454.
- k. **Lead Agency:** Agency responsible for making sure the project, Process, or Product is completed and communication protocols are followed.
- l. **Levels of Communication:** Consider, Consult, Coordinate, Cooperate, or Collaborate. The Agreement may employ any or all of these terms and different Processes or Products may utilize these different levels of communication between the Parties involved.
- m. **Measure:** An expression based on a metric that is used to establish a target and to assess progress toward achieving the established targets.

- n. **Metropolitan Planning Area (MPA):** The geographic area determined by agreement between the MPO for the area and the Governor, which must include the entire urbanized area and the contiguous area expected to become urbanized within a 20-year forecast period in which the metropolitan transportation planning process is carried out.
- o. **Metropolitan Planning Organization:** The Policy Board of an organization created and designated to carry out the metropolitan transportation planning process.
- p. **Metropolitan Transportation Plan (MTP):** A plan prepared by a Metropolitan Planning Organization in accordance with 23 CFR 450 Subpart C and 49 USC 5303(i), in order to accomplish the objectives outlined by the metropolitan planning organization, the state, and the public transportation providers with respect to the development of the metropolitan area's transportation network. This plan must identify how the metropolitan area will manage and operate a multi-modal transportation system (including transit, highway, bicycle, pedestrian, and accessible transportation) to meet the region's economic, transportation, development and sustainability goals – among others – for a 20+-year planning horizon, while remaining fiscally constrained.
- q. **Obligated Projects:** The projects funded under title 23 U.S.C. and title 49 U.S.C. Chapter 53 for which the supporting federal funds were authorized and committed by the state or designated recipient in the preceding or current program year, and authorized by the FHWA or awarded as a grant by the FTA.
- r. **Oversight:** Activities undertaken to ensure Federal programs are in compliance with applicable laws and regulations.
- s. **Owner:** The agency that keeps and maintains the final Product as referenced in Exhibit A.
- t. **Party of Interest:** A Party to this Agreement that is not the lead agency for a particular planning project, but is affected by that project.
- u. **Performance Based Planning and Programming (PBPP):** Refers to the application of performance management principles within the planning and programming processes of transportation agencies to achieve desired performance outcomes for the multimodal transportation system. This includes a range of activities and products undertaken by a transportation agency together with other parties, stakeholders, and the public as part of a 3C (cooperative, continuing and comprehensive) process. PBPP attempts to ensure that transportation investment decisions are made – both in long-term planning and short-term programming of projects – based on their ability to meet established goals for improving the overall transportation system. It also involves measuring progress toward meeting goals, and using information on past and anticipated future performance trend to inform investment decisions.
- v. **Performance Measure Coordination Process** – Provides an overview of the required coordination and collaboration between ODOT and the metropolitan planning organizations within Oregon in establishing federally required performance targets.

- w. **Performance Target** – A quantifiable level of performance or condition, expressed as a value for the measure, to be achieved within a time period required by the FHWA or FTA.
- x. **Performance Period:** A determined time period during which condition/performance is measured and evaluated to: assess condition/performance with respect to baseline condition/performance; and track progress toward the achievement of the targets that represent the intended condition/performance level at the midpoint and at the end of that time period. The “performance period” applies to all measures in this part except the measures for the Highway Safety Improvement Program. Each performance period covers a 4-year duration beginning on a specified date as provided in CFR 490.105.
- y. **Planning Process:** A procedure by which ODOT, MPO and Public Transportation Provider cooperatively determine their mutual responsibilities in carrying out the metropolitan transportation planning process.
- z. **Planning Product:** The final documented result of a planning activity. Planning products that may be developed may include plans, programs, tools, and administrative products.
- aa. **Public Transportation Provider (PTP):** The primary provider(s) of public transportation services in an area.
- bb. **Reasonably Available Funds:** New funding sources that are reasonably expected to be available. New funding sources are revenue that do not currently exist or that may require additional steps before the ODOT, a metropolitan planning organization, or a public transportation provider can commit such funding to transportation projects.
- cc. **Regional Intelligent Transportation System (ITS) Architecture:** A regional framework for ensuring institutional agreement and technical integration for the implementation of ITS projects or groups of projects.
- dd. **Regionally Significant Project:** A transportation project (other than projects that may be grouped in the TIP and/or STIP), or exempt projects as defined in the Environmental Protection Agency’s (EPA’s) transportation conformity regulation 40 CFR 93 that is on a facility which serves regional transportation needs (such as access to and from the area outside the region; major activity centers in the region; major planned developments such as new retail malls, sports complexes, employment centers, or transportation terminals) and would normally be included in the modeling of the metropolitan area’s transportation network. At a minimum, this includes all principal arterial highways and all fixed guideway transit facilities that offer a significant alternative to regional highway travel.
- ee. **Responsible:** Answerable or accountable, as for something within one’s power, control, or management. There can be multiple levels or roles in responsibility. Examples of levels of responsibility include:
  - *Authority:* Authority to make the final decision; signature authority.

- *Lead*: Responsible for making sure the activity is completed and communication protocols are followed.
  - *Coordination*: Responsible for coordinating all elements necessary to complete an activity.
  - *Support*: Provide administrative or technical support necessary to complete an activity.
  - *Information*: Provide input and information necessary to complete an activity.
- ff. **Statewide Transportation Improvement Program (STIP)**: The statewide prioritized listing/program of transportation projects covering a period of four (4) years that is consistent with the long-range statewide transportation plan, metropolitan transportation plans, and TIPs, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. Chapter 53.
- gg. **Stewardship**: Activities undertaken to ensure the efficient and effective use and management of the public funds that have been entrusted by the FHWA and FTA.
- hh. **Sufficient Financial Information**: Financial information that is required in the PCS (PCSX) data entry tool and proof of local commitment to provide matching funds where local match is included in project finance (such as inclusion in the local capital improvement program).
- ii. **Transportation Improvement Program (TIP)**: The prioritized listing/program of transportation projects covering a period of four (4) years that is developed and formally adopted by an Metropolitan Planning Organization as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under title 23 U.S.C. and title 49 U.S.C. 5303. The TIP must be developed in cooperation with the state and public transit providers.
- jj. **Unified Planning Work Program (UPWP)**: A statement of work identifying the planning priorities and activities to be carried out within a metropolitan planning area. At a minimum, a UPWP includes a description of the planning work, time frames for completing the work, the cost of the work, and the source(s) of funds.
- kk. **Visualization Techniques**: The methods used by states and MPOs in the development of transportation plans and programs with the public, elected and appointed officials, and other stakeholders in a clear and easily accessible format such as maps, pictures, and/or displays, to promote improved understanding of existing or proposed transportation plans and programs.
- ll. **Year-of-Expenditure Dollars**: Dollar sums that account for inflation to reflect expected purchasing power in the year in which the expenditure will be made, based on reasonable financial principles and information.

### **SECTION III. SUMMARY OF PROCESS AND PRODUCT RESPONSIBILITIES**

1. All Parties agree to cooperatively develop and share information related to the development of the Products and Processes that support the MTP, the TIP, and the development of the annual listing of obligated Projects, and other transportation-related Processes, tools, and administrative products.
  
2. Exhibit A, Table 1 shows the Plans, Programs, Tools, and Administrative Products covered by this Agreement and each Party's level of responsibility for each product. The lead Party holds overall responsibility for the product and the other Parties assist by cooperating, communicating, and sharing information necessary to complete and maintain the product. Each of these Products has one or more lead Party and the others are partners in completion of the Products by cooperating and providing support and information as needed.

<sup>1</sup> Party roles, responsibilities and funding may be further refined in a specific product agreement.

<sup>2</sup> Plans, other than facility plans, prepared by any of the Parties.

<sup>3</sup> Facility plans include, but are not limited to, interchange area management plans, expressway management plans, access management plans, or other plans that require approval by the Oregon Transportation Commission.

<sup>4</sup> Pursuant to 23 CFR 450.326. The TIP is incorporated verbatim into the STIP (*"After approval by the MPO and the Governor, the TIP shall be included without change, directly or by reference, in the STIP..."*).

<sup>5</sup> Pursuant to 23 CFR 450.206(c), 23 CFR 450.2116(f), 23 CFR 450.218 (q), 23 CFR 490, 49 CFR 625, 49 CFR 630 and 49 CFR 670(3).

- Each time a new transportation planning Process or Product commences, the roles, responsibilities, and expectations of each Party will be written down and distributed to each participant of the Product as applicable. The Parties will specify at least nine (9) items identified below; other items should be added as needed to ensure that the responsibilities and expectations of each Party are clearly identified.

- a. Product Owner
- b. Lead Agency
- c. Responsibilities of each Party
- d. Primary levels of communication
- e. Specific communication procedures
- f. Use of consultant services
- g. Decision process
- h. Funding, reporting responsibilities
- i. Resource sharing agreements

If the answers will vary by task, Product subpart, or other conditions, the responsibilities of each Party under each condition will be specified. (Definitions set forth in this Agreement will apply). An example of such a Product may be an Interchange Area Management Plan, where the lead Party would be ODOT, or a Transit Center study conducted by Public Transportation Provider. However, any of the Parties may request that the roles and responsibilities of any "Planning Project" be clarified and redefined within the constraints of a separate cooperative agreement. MPO may develop a form to facilitate the identification of responsibilities.

4. The questions that follow are examples of items to consider when answering the nine (9) items above. Not all items may apply to a specific Process or Product, nor is this list intended to be all inclusive. Parties should use these considerations as a starting point to answer the nine (9) items above and to evaluate what information may need to be set forth in a separate Product-specific agreement.

a. Product Parties

- What Parties will participate in the Product?
- Which agency will own the Product? (See Definitions)
- Which is the lead Party? (See Definitions)
- Which Party will develop the scope of work? Who will approve it?
- What level of responsibility does each Party have for each task or part of the Product? (See Definitions)
- Who are the contact people?
- When are the different Parties involved?
- Who provides data?
- Who analyzes the data?

b. Communication

- What levels of communication are appropriate for the planning Product? (See Definitions)
- What procedures for communication are appropriate for the level of interaction needed? (See Definitions)
- Who from each Party needs to be informed?
- Who is responsible for implementing communication protocols?
- How will communication occur with the ACT, TAC, or other advisory committees?
- Who is responsible for coordinating communication with the public?

- Who is responsible for coordinating and joint communications with other Parties?

c. Consultants

- Will consultants assist with the Product?
- Which Party is responsible for recruiting for and/or selecting any consultants to assist the Product?
- Who is responsible for contract administration?
- Who is responsible for communicating with the consultants?
- Who is responsible for reviewing and approving work?

d. Decision Process

- Which Party has decision authority for which kinds of issues?
- Who is responsible for providing information/support for the decision? How?
- Who has responsibility to serve on decision-making bodies?
- How will needs for amendments to the Product be communicated and decided upon?
- Who is responsible for completing amendments and when?
- How will differences of opinion be handled?

e. Funding

- What level of funding is available?
- What types of funds are to be used?
- What restrictions are there on use of the funds?
- Who is responsible for authorizing funds?
- Who is responsible for reporting use of funds and accomplishments, at what level of detail and to whom?

f. Sharing Resources

- Who is responsible for what elements of different kinds of Products?
- When will each Party be responsible for supporting the others?
- Is this consistent with existing agreements or adopted plans for the area?

g. Transit

- How will the Parties cooperate with PTP's in the area?
- How will the PTP's participate in the planning Product?
- Have private providers been considered?

**SECTION IV. FINANCIAL PLAN DEVELOPMENT AND MAINTENANCE ROLES AND RESPONSIBILITIES**

– There are different financial plan requirements for ODOT and MPO with regard to the long-range plans and the transportation improvement programs. Work under this task will address the financial plan tracking of the funding for projects that are included in both the current TIP and STIP and development of the financial plan for the long-range MTP. The STIP and TIP financial plan process has been developed to ensure that the TIP and STIP are constrained throughout their lifecycles. These

financial plans act as “checkbooks” for the various programs both at the state level and at the MPO level. The financial plan for the MTP enables fiscal constraint for the long-range plan.

**a. Responsibilities of Each Agency for Financial Plan and Fiscal Constraint Development (TIP/STIP Updates)**

**ODOT**

1. ODOT’s Active Transportation Section, Program and Funding Services Unit is the lead agency for administration of the STIP financial plan. ODOT’s Active Transportation Section, Program and Funding Services Unit will ensure that all federal funds used within the state are programmed in the STIP and accounted for and that the STIP captures any project activity related to federal funds or regionally significant projects. ODOT shall program funds to projects in a manner that maintains financial constraint and is consistent with federal regulations.
2. ODOT, including the Rail and Public Transit Division, shall provide MPO and Public Transportation Provider sufficient financial information (including information regarding grant awards, annual appropriation amounts, limitations, and rescissions, as applicable) in a timely manner. ODOT will provide project financial information to MPO as needed for demonstration of fiscal constraint of the metropolitan TIP.
3. ODOT coordinates the special purpose committee described below. The special purpose committee projects long range federal and state revenues for development of the financially constrained MTP also referred to as the Regional Transportation Plan (RTP). The special purpose committee consists of a representative from ODOT and each metropolitan planning organization and each metropolitan public transportation provider. These representatives will cooperatively develop a methodology for estimating state and federal revenues, as well as the actual estimates. This methodology includes the development of a process for distributing these funds to ODOT regions and metropolitan planning areas. The planning horizon will be sufficient to enable each metropolitan planning organization to produce its next MTP.
4. ODOT will coordinate a meeting with MPO and Public Transportation Provider during each STIP/TIP cycle to mutually agree upon funding assumptions.
5. ODOT is responsible for demonstrating fiscal constraint for the STIP.

**MPO**

1. MPO is the lead agency for administration of the TIP financial plan. MPO shall ensure that all federally funded or regionally significant projects within the MPA are included in the TIP, which will then be included in the STIP and in the STIP financial plan.
2. To provide consistency and transparency the MPO shall establish a PBPP process for their Region to clearly define the parameters and factors considered in the

project evaluation process, as well as share all of the evaluation results used in the decision making process.

3. MPO shall program funds to projects in a manner that maintains financial constraint and is consistent with federal regulations. Proposed programming that needs to utilize state funding authority to maintain fiscal constraint must be approved by ODOT's Active Transportation Section, Program and Funding Services Unit prior to programming being submitted for inclusion in the STIP.
4. MPO shall provide sufficient financial information (including information regarding funding obligations, as applicable) to ODOT and Public Transportation Provider in a timely manner.
5. MPO shall submit to ODOT cost-estimates for local projects that include year-of-expenditure dollars consistent with programming years.
6. MPO is the lead agency for completion of the MTP financial plan and for projecting local and private funds for the preparation of the financially constrained MTP. MPO will cooperatively develop these projections with ODOT and the Public Transportation Provider. MPO will participate on the special purpose committee on state and federal funds that is coordinated by ODOT.
7. MPO agrees to utilize the mutually agreed upon funding assumption for their TIP development forecasts.
8. MPO is responsible for demonstrating fiscal constraint for the MTIP.

#### **PUBLIC TRANSPORTATION PROVIDER**

1. Public Transportation Provider shall provide MPO and ODOT sufficient financial information in a timely manner.
  2. Public Transportation Provider shall provide MPO with project cost-estimates, in year-of-expenditure dollars, for federally funded or regionally significant projects.
  3. Public Transportation Provider is the lead agency in projecting long-range local and private revenues for public transit investments. Public Transportation Provider will cooperatively develop these projections with ODOT and MPO. Public Transportation Provider will participate on the special purpose committee on state and federal funds that is coordinated by ODOT.
  4. Public Transportation Provider is responsible for demonstrating fiscal constraint for the MTIP.
- b. Responsibilities of Each Agency for ODOT's STIP Financial Plan and Fiscal Constraint Amendments (TIP/STIP Activity)**

### **ODOT**

1. ODOT's Active Transportation Section, Program and Funding Services Unit will reconcile funds to the FHWA's FMIS through transactions that are posted. These transactions will be captured in the ODOT's STIP financial plan and made available monthly to MPO. Information in the financial plan will include all fund activities of authorizations, apportionments/appropriations, limitations, rescissions, and revenue aligned budget authority.
2. The ODOT's STIP financial plan will identify any fund programming amendments and project activity that affect funding and fiscal constraint including project additions, deletions, obligations, de-obligations, project fund authority "slips" between fiscal years, reimbursement expenditures, and project closeout balances to be returned to the total MPO funding balance. At the end of each federal fiscal year, ODOT's Active Transportation Section, Program and Funding Services will ensure that there are no planned projects unaccounted for and that any such projects are slipped into later years or cancelled via amendments.
3. ODOT's Active Transportation Section, Program and Funding Services Unit shall provide the MPO their obligation authority amounts.
4. ODOT, including the Rail and Public Transit Division, shall provide MPO and Public Transportation Provider sufficient financial information (including TIP/STIP amendments as applicable) in a timely manner. ODOT will provide project financial information to MPO as needed for demonstration of fiscal constraint of the metropolitan TIP.

### **MPO**

1. MPO will maintain the TIP financial plan, which will include the current programming for all projects located within the MPA boundary and identify amendments and project activity that affect funding and fiscal constraint. This includes project additions, deletions, obligations, de-obligations, project fund authority "slips" between fiscal years, reimbursement expenditures, and project closeout balances to be returned to the total fund authority balance.
2. MPO shall ensure that the transactions identified in the STIP financial plan are accurate and must alert ODOT's Active Transportation Section, Program and Funding Services Unit to any changes, errors, or omissions.
3. MPO shall cooperate with ODOT's Active Transportation Section, Program and Funding Services Unit on the development of financial forecasts, authorizations, apportionments and regional sub-allocation of FTA funding.
4. MPO shall provide TIP amendments, as applicable and sufficient financial information, to ODOT and Public Transportation Provider in a timely manner.

**PUBLIC TRANSPORTATION PROVIDER**

1. Public Transportation Provider shall cooperate with MPO on the development of financial forecasts, authorizations, apportionments and regional sub-allocation of FTA funding. Public Transportation Provider shall provide MPO with on-going financial information on FTA grant transactions, including actual apportionment, allocations, earmarks, TIP amendment requests, project slips/advances, grant awards, project obligations and de-obligations.

**c. Communication and Information Sharing related to the Financial Plan –**

Development and maintenance of STIP and TIP financial plans and obligated project lists requires ongoing, effective communication among ODOT, MPO, and Public Transportation Provider. The Parties will consult with one another individually as needed and at regularly scheduled meetings. The Parties will communicate, share necessary information, cooperate, and assist one another to meet their individual responsibilities for development and maintenance of these products.

**ODOT**

1. ODOT's Active Transportation Section, Program and Funding Services Unit shall reconcile the STIP financial plan on a monthly basis and make it available to the MPO. MPO will be notified of the availability of the updated STIP financial plan. ODOT's Active Transportation Section, Program and Funding Services Unit shall also provide FMIS information upon request, to enable MPO to track the funding and obligation status of federally funded projects. In addition, ODOT's Active Transportation Section, Program and Funding Services Unit will be available for any other issues/questions via telephone, email and in person during regular business hours.
2. ODOT will utilize the most current STIP amendment matrix to communicate proposed programming changes to MPO.

**MPO**

1. MPO shall communicate and work directly with ODOT. MPO will utilize the most current STIP amendment matrix to communicate programming changes to ODOT's regional STIP coordinator and Active Transportation Section, Program and Funding Services Unit.

**PUBLIC TRANSPORTATION PROVIDER**

1. Public Transportation Provider shall primarily communicate directly with MPO on any finance related issue, specifically changes to the TIP or STIP. As necessary, Public Transportation Provider may request joint meetings with MPO and ODOT's Active Transportation Section, Program and Funding Services Unit. In addition, the Public Transportation Provider may work with RPTD where appropriate.

**SECTION V. CLARIFICATION AND RESOLUTION OF CONCERNS**

### **ODOT**

1. ODOT's Active Transportation Section, Program and Funding Services Unit has the responsibility to ensure the correct funding levels are identified through working with FHWA and FTA. Any changes to Processes will be communicated initially through the quarterly meetings between ODOT, MPOs, FHWA, and FTA. If more immediate action is necessary, ODOT's Active Transportation Section, Program and Funding Services Unit will contact those affected either by phone or email.
2. If there are questions relating to the implementation of federal rules, the appropriate federal agency will be consulted for clarification. On such questions where the answer will apply statewide, ODOT will send a letter to the appropriate federal agency and communicate the response to MPO and ODOT's Active Transportation Section, Program and Funding Services Unit at the quarterly meeting or via email.

### **MPO**

1. If MPO disputes a decision made by ODOT, MPO will contact or consult the respective federal agency for further clarification.

### **PUBLIC TRANSPORTATION PROVIDER**

1. Public Transportation Provider has responsibility to ensure the correct funding levels are identified by working with FTA and RPTD. If there are questions regarding the interpretation of federal rules, the respective federal agency will be consulted for further clarification.

## **SECTION VI. ANNUAL LISTING OF OBLIGATED PROJECTS ROLES AND RESPONSIBILITIES**

– Pursuant to 23 CFR 450.332 the MPO is required to develop an annual listing of projects that were obligated in the preceding program year, within ninety (90) days of the end of the program year. The program year corresponds to the Federal fiscal year of October 1 to September 30. ODOT, MPO, and Public Transportation Provider must cooperatively develop the listing of projects. The list must include all Title 23 and Title 49 federally funded projects, and include sufficient description to identify the project or phase, the agency responsible for carrying out the project, the amount of federal funds requested in the TIP, the amount obligated during the preceding year, the amount previously obligated, and the amount remaining for subsequent years. The list must be published in accordance with the MPO's public participation criteria for the TIP.

### **a. Responsibilities of Each Agency**

#### **ODOT**

1. ODOT's Active Transportation Section, Program and Funding Services Unit shall provide documentation of obligated projects roles and responsibilities from FHWA to MPO no later than thirty (30) days after the end of each federal fiscal year, which ends September 30<sup>th</sup>. The documentation will include the necessary data elements

as required in federal regulations, summarized in the preceding paragraph, including the identification of bicycle and pedestrian projects.

2. ODOT's Active Transportation Section, Program and Funding Services Unit will provide FMIS data sheets in PDF format to MPO upon request.
3. ODOT's Geographic Information Services (GIS) Unit will provide geographic data (shapefiles and/or PDF maps) for ODOT's obligated projects upon request by MPO.

#### **MPO**

1. MPO is the lead agency in production of the obligation report. MPO will take the data provided from ODOT, FTA, and Public Transportation Provider and create a report that will be made available to the public in accordance with the federal regulations and MPO public participation criteria for the TIP.

#### **PUBLIC TRANSPORTATION PROVIDER**

1. Public Transportation Provider shall provide MPO with documentation that includes the necessary data elements as required in federal regulations, including the identification of bicycle and pedestrian projects.
2. Public Transportation Provider will provide FTA Transit Award Management System (TrAMS) data to MPO in a format that meets the federal reporting requirements.
3. Public Transportation Provider will also provide visualization techniques – geographic data (shapefiles and/or PDF maps) for all of its obligated projects.

#### **b. Communication and Information Sharing related to the annual listing of Obligated projects**

#### **ODOT**

1. ODOT's Active Transportation Section, Program and Funding Services Unit will deliver documentation identified in Section VI in an electronic medium to MPO. If a report is created, then ODOT's Active Transportation Section, Program and Funding Services Unit will send an email notifying MPO that the report is ready and including a link to the report.

#### **MPO**

1. MPO will utilize the data provided by ODOT's Active Transportation Section, Program and Funding Services Unit and the Public Transportation Provider to create the required annual report. MPO shall make the report available to all Parties.

#### **PUBLIC TRANSPORTATION PROVIDER**

1. Public Transportation Provider will deliver documentation as identified in Section VI in an electronic medium to MPO in a format consistent with the report required by the MPO.

## **SECTION VII. PERFORMANCE BASED PLANNING AND PROGRAMMING PROCESS ROLES AND RESPONSIBILITIES**

### **ODOT**

1. ODOT shall collaboratively develop with all metropolitan planning organizations and public transportation providers in Oregon one or more Performance Measure Coordination Processes for cooperatively developing and sharing information related to transportation performance data, the selection of performance targets, the reporting of performance targets, the reporting of performance information to be used in tracking progress toward attainment of critical outcome for the region of each metropolitan planning organization and the collection of data for the risk based transportation asset management plan for the National Highway System (NHS) and post this process document(s) to the ODOT Website at <http://www.oregon.gov/ODOT/Planning/Pages/Plans.aspx#OHP> This process document(s) will include the following:
  - a. ODOT's responsibilities regarding data and data sharing with metropolitan planning organizations necessary to develop targets and calculate performance for federal reporting.
  - b. ODOT's responsibilities regarding performing analysis necessary to calculate performance measure results for both state and metropolitan planning organization targets.
  - c. ODOT's responsibilities for coordinating with metropolitan planning organizations and public transportation providers for reporting both state and metropolitan planning organization level performance target reports.
  - d. ODOT's responsibilities to consult with metropolitan planning organizations in amending and revising state targets in accordance with federal rules.
  - e. ODOT's responsibilities for coordinating with metropolitan planning organizations and public transportation providers when amending and revising metropolitan planning organization-specific targets.
  - f. ODOT's role for documenting how the state is using a PBPP approach to programming projects as part of the STIP and how the selected projects help the state achieve its designated targets.

### **MPO**

1. MPO shall collaboratively develop with ODOT the Performance Measure Coordination Process described in Section VII above, and to the maximum extent practical ensure consistency with the State. This process includes the following:
  - a. MPO will fulfill all MPO responsibilities outlined in the Performance Measure Coordination Process.
  - b. MPO in coordination with ODOT will establish, adjust, and report as necessary, MPO performance targets.

- c. MPO will be responsible for documenting, to the extent possible, how the performance measure information was used in project selection and prioritization processes with funds under the responsibility of the MPO, as well as how the selected projects help support the MPO in achieving performance targets, to the extent possible. This will be documented as part of MPO's submittal of the self-certification with the TIP.

### **PUBLIC TRANSPORTATION PROVIDER**

1. Public Transportation Provider shall collaboratively develop with ODOT and MPO a Performance Measure Coordination Process described in Section VII above for cooperatively developing and sharing information related to public transportation performance data, the selection of performance targets, the reporting of performance targets, the reporting of performance to be used in tracking progress toward attainment of critical outcome for the Public Transportation Provider, and to the maximum extent practical ensure consistency with the State. This process includes the following:
  - a. Public Transportation Provider will fulfill all Public Transportation Provider responsibilities outlined in the Performance Measure Coordination Process.
  - b. Public Transportation Provider, in coordination with ODOT and MPO, shall document performance of the transportation system, to ensure consistency and report the performance measure results to the appropriate federal agency.

## **SECTION VIII. GENERAL ROLES, RESPONSIBILITIES, AND OBLIGATIONS**

### **ODOT**

1. ODOT will engage the other Parties to this Agreement in its activities relating to financial plan development and maintenance, and development of the annual listing of obligated projects as set forth in this Agreement. ODOT will communicate early and in good faith, such that affected Parties have the opportunity to influence the final outcome or decisions.
2. Where ODOT is a party of interest, it will participate in the development of each Product as specified in this Agreement. ODOT will offer information and opinions such that the lead agency and other participants have the opportunity to understand its positions, concerns, conflicts, and any likely objections to proposed outcomes.
3. ODOT will develop a formula for allocation of planning funds authorized by 23 U.S.C. 104(f) among metropolitan planning organizations within Oregon, in consultation with MPO and other metropolitan planning organizations, subject to approval by FHWA.

### **MPO**

1. MPO will engage the other Parties to this Agreement in its activities relating to financial plan development and maintenance, and development of the annual listing of obligated projects as set forth in this Agreement. MPO will communicate early and in good faith, such that affected Parties have the opportunity to influence the final outcome or decisions.
2. Where MPO is a party of interest, it will participate in the development of each Product as specified in this Agreement. MPO will offer information and opinions such that the lead agency and other participants have the opportunity to understand its positions, concerns, conflicts, and any likely objections to proposed outcomes.
3. MPO in accordance with 23 U.S.C. 104(f) will consult with ODOT on the formula developed by the State, and approved by the FHWA.

### **PUBLIC TRANSPORTATION PROVIDER**

1. Public Transportation Provider will engage the other Parties to this Agreement in its activities relating to financial plan development and maintenance, and development of the annual listing of obligated projects as set forth in this Agreement. Public Transportation Provider will communicate early and in good faith, such that affected Parties have the opportunity to influence the final outcome or decisions.
2. Where Public Transportation Provider is a party of interest, it will participate in the development of each Product as specified in this Agreement. Public Transportation Provider will offer information and opinions such that the lead agency and other participants have the opportunity to understand its positions, concerns, conflicts, and any likely objections to proposed outcomes.

**INTERGOVERNMENTAL AGREEMENT  
ODOT/MPO/Transit Operator Agreement  
Salem Keizer Area Transportation Study  
Salem Area Mass Transit District**

THIS AGREEMENT is made and entered into by and between the STATE OF OREGON acting by and through its Department of Transportation, hereinafter referred to as "ODOT", the Salem-Keizer-Turner Metropolitan Planning Organization, acting by and through the Mid-Willamette Valley Council of Governments, hereinafter referred to as "SKATS", and the Salem Area Mass Transit District, acting by and through its Board of Directors, hereinafter referred to as "SAMTD", collectively referred to as "Parties."

**RECITALS**

1. By authority granted in ORS 190.110, state agencies may enter into agreements with units of local governments for the performance of any or all functions and activities that a party to the agreement, its officers, or agents have the authority to perform.
2. Intergovernmental agreements defining roles and responsibilities for transportation planning between ODOT, the metropolitan planning organization (MPO) for an area, and the public transit operator(s) for the area are required by the Code of Federal Regulation (CFR), Chapter 23, Section 450.314 which states that:

*"The MPO, the State(s), and the public transportation operator(s) shall cooperatively determine their mutual responsibilities in carrying out the metropolitan transportation planning process. These responsibilities shall be clearly identified in written agreements among the MPO, the State(s), and the public transportation operator(s) serving the metropolitan planning area."*

3. SKATS is the designated MPO for the Salem-Keizer area. It was established in 1987 by a Cooperative Agreement (ODOT Agreement No. 20523) specifying the "Duties and Responsibilities for Cooperatively Carrying Out Transportation Planning and Programming", and is incorporated by reference. The Cooperative Agreement remains in effect and is not modified in any way by this Agreement. The Cooperative Agreement specifies that SKATS is responsible for the development of transportation plans, transportation improvement programs, work programs, and all other actions necessary to carry out the transportation planning process. The Cooperative Agreement requires the unanimous agreement of the major local participants for the adoption of the Transportation Plan and Transportation Improvement Program (TIP). In order to be implemented, the recommendations of all other regionally significant transportation planning efforts need to be incorporated into the Transportation Plan and TIP. Therefore, it is the general policy of SKATS that transportation planning products be developed with the goal of obtaining

unanimous support from the SKATS Policy Committee. This general approach requires a high level of communication between all of the SKATS participants.

4. SAMTD is the public transportation operator for the Salem-Keizer area.
5. There also exists an agreement between SKATS and SAMTD regarding the roles and responsibilities related to transit planning in the Salem-Keizer area. Both of these agreements are included as appendices to the Unified Planning Work Program (UPWP) and are reviewed on an annual basis.

**NOW THEREFORE**, the premises being in general as stated in the foregoing recitals, it is agreed by and between the Parties hereto as follows:

### **TERMS OF AGREEMENT**

1. Pursuant to the authority above, ODOT, SKATS, and SAMTD agree to define roles and responsibilities in carrying out the metropolitan transportation planning process, as further described in the Statement of Work, marked Exhibit A, attached hereto and by this reference made a part hereof.
2. The term of this Agreement shall begin on the date all required signatures are obtained and shall terminate ten (10) calendar years following the date all required signatures are obtained.
3. This Agreement may be revisited as needed, when the Parties so determine, and will be reviewed upon commencement of the MPO recertification or self-certification process.

### **ODOT OBLIGATIONS**

1. ODOT will engage the other Parties to this Agreement in its planning activities as further identified in Exhibit A. Where ODOT is the lead agency for a product, it will be responsible for pursuing communication with the other Parties as agreed. Early communication will be sought in good faith, such that affected Parties have the opportunity to influence the final outcome or decisions.
2. Where ODOT is a party of interest to a planning project, it will participate in the development of the planning product as specified in this Agreement. ODOT will offer information and opinions such that the lead agency and other participants have the opportunity to understand its positions, concerns, conflicts, and any likely objections to proposed outcomes.
3. ODOT's Project Manager for this Agreement is the Region 2, Area 3 Senior Planner, or assigned designee in the absence of said individual, 455 Airport Road SE, Salem, OR 97301-5395; telephone (503) 986-2663.

### **SKATS OBLIGATIONS**

1. SKATS will engage the other Parties to this Agreement in its planning activities as further identified in Exhibit A. Where SKATS is the lead agency for a product, it will be responsible for pursuing communication with the other Parties as agreed. Early communication will be sought in good faith, such that affected Parties have the opportunity to influence the final outcome or decisions.
2. Where SKATS is a party of interest to a planning project, it will participate in the development of the planning product as specified in this Agreement. SKATS will offer information and opinions such that the lead agency and other participants have the opportunity to understand its positions, concerns, conflicts, and any likely objections to proposed outcomes.
3. SKATS Project Manager for this Agreement is the Director of Transportation and Natural Resources, or assigned designee upon absence of said individual, Mid-Willamette Valley Council of Governments, 105 High Street SE, Salem, Oregon 97301; telephone (503) 588-6177.

### **SAMTD OBLIGATIONS**

1. SAMTD will engage the other Parties to this Agreement in its planning activities as further identified in Exhibit A. Where SAMTD is the lead agency for a product, it will be responsible for pursuing communication with the other Parties as agreed. Early communication will be sought in good faith, such that affected Parties have the opportunity to influence the final outcome or decisions.
2. Where SAMTD is a party of interest to a planning project, it will participate in the development of the planning product as specified in this Agreement. The Public Transit Operator will offer information and opinions such that the lead agency and other participants have the opportunity to understand its positions, concerns, conflicts, and any likely objections to proposed outcomes.
3. SAMTD Project Manager for this Agreement is the Director, Transportation Development Division, or assigned designee upon absence of said individual, Salem Area Mass Transit District, 555 Court Street NE, Suite 5230, Salem, Oregon 97301; telephone (503) 588-2424.

### **GENERAL PROVISIONS**

1. This Agreement may be terminated by any Party upon thirty (30) days' notice, in writing and delivered by certified mail or in person.
2. Any Party may terminate this Agreement effective upon delivery of written notice to the other Parties, or at such later date as may be established by that Party, under any of the following conditions:

SKATS/SAMTD/ODOT  
Agreement No. 24,736

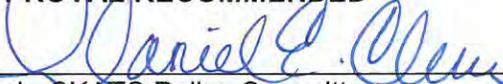

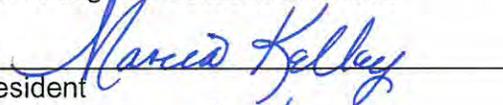

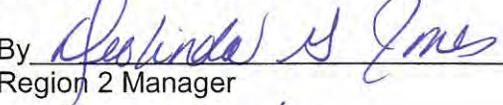

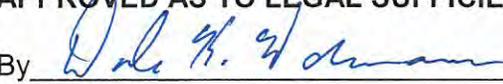

- a. If the other Parties fail to provide services called for by this Agreement within the time specified herein or any extension thereof.
  - b. If the other Parties fail to perform any of the other provisions of this Agreement, or so fail to pursue the work as to endanger performance of this Agreement in accordance with its terms, and after receipt of written notice from the other Party fails to correct such failures within 10 days or such longer period as other Party may authorize.
  - c. If federal or state laws, regulations or guidelines are modified or interpreted in such a way that either the work under this Agreement is prohibited or either party is prohibited from paying for such work from the planned funding source.
3. Any termination of this Agreement shall not prejudice any rights or obligations accrued to the Parties prior to termination.
  4. SKATS and SAMTD shall comply with all federal, state, and local laws, regulations, executive orders and ordinances applicable to the work under this Agreement, including, without limitation, the provisions of ORS 279B.220, 279B.225, 279B.230, 279B.235 and 279B.270 incorporated herein by reference and made a part hereof; Without limiting the generality of the foregoing, SKATS and SAMTD expressly agree to comply with (i) Title VI of Civil Rights Act of 1964; (ii) Title V and Section 504 of the Rehabilitation Act of 1973; (iii) the Americans with Disabilities Act of 1990 and ORS 659A.142; (iv) all regulations and administrative rules established pursuant to the foregoing laws; and (v) all other applicable requirements of federal and state civil rights and rehabilitation statutes, rules and regulations.
  5. All employers, including all Parties, that employ subject workers who work under this Agreement in the State of Oregon shall comply with ORS 656.017 and provide the required Workers' Compensation coverage unless such employers are exempt under ORS 656.126. All Parties shall ensure that each of its subcontractors complies with these requirements.
  6. SKATS and SAMTD acknowledge and agree that State, the Secretary of State's Office of the State of Oregon, the federal government, and their duly authorized representatives shall have access to the books, documents, papers, and records of SKATS and SAMTD which are directly pertinent to the specific Agreement for the purpose of making audit, examination, excerpts, and transcripts for a period of six (6) years after completion of Project. Copies of applicable records shall be made available upon request. Payment for costs of copies is reimbursable by State.
  7. This Agreement may be executed in several counterparts (facsimile or otherwise) all of which when taken together shall constitute one agreement binding on all Parties, notwithstanding that all Parties are not signatories to the same counterpart. Each copy of this Agreement so executed shall constitute an original.

8. This Agreement and attached exhibits constitute the entire agreement between the Parties on the subject matter hereof. There are no understandings, agreements, or representations, oral or written, not specified herein regarding this Agreement. No waiver, consent, modification or change of terms of this Agreement shall bind any Party unless in writing and signed by all Parties and all necessary approvals have been obtained. Such waiver, consent, modification or change, if made, shall be effective only in the specific instance and for the specific purpose given. The failure of State to enforce any provision of this Agreement shall not constitute a waiver by State of that or any other provision.

**IN WITNESS WHEREOF**, the Parties hereto have set their hands as of the day and year hereinafter written.

The Oregon Transportation Commission on June 18, 2003, approved Delegation Order No. 2, which authorizes the Director to approve and execute agreements for day-to-day operations. Day-to-day operations include those activities required to implement the biennial budget approved by the Legislature, including activities to execute a project in the Statewide Transportation Improvement Program.

On April 12, 2004, the Director approved Subdelegation Order No. 10 in which the Director delegates authority to the Division Administrator, Transportation Development to approve and execute personal service contracts and agreements over \$75,000 for programs within the Transportation Development Division when the work is related to a project included in the STIP or in other system plans approved by the Oregon Transportation Commission or in a line item in the legislatively adopted biennial budget , and to approve and execute all agreements, approved by the OTC, for Metropolitan Planning Organization agreements outside the Transportation Program Development limitation and acceptance of funds sent to ODOT, but not earmarked for Transportation Program Development.

**EXHIBIT A**  
**STATEMENT OF WORK**

1. **DEFINITIONS** – the following definitions apply to this Agreement specifically and shall not be construed to apply to any other agreement between any of the Parties. They may differ from those listed for these terms in the federal regulations.
  - a. **Consider:** Take into account opinions and relevant information from other Parties in making a decision. Receive the information or comments, acknowledge such, and document the acknowledgement. Those receiving comments are not bound by the opinions or information received.
  - b. **Consult:** Confer with other identified Parties in accordance with an established process; consider the views of other Parties prior to taking action, inform other Parties about action taken in accordance with established process. The communication should be timely, and ahead of decisions. Those receiving comments are not bound by the opinions or information received.
  - c. **Coordinate:** Develop plans, programs, and schedules in consultation with other agencies such that agencies' separate projects do not conflict. Coordinated projects are usually those for which all Parties, other than the lead agency, do not have a vested interest and are often specific projects rather than policy outcomes. The lead agency is the project proponent and the other Parties are not deeply involved. The lead agency is expected to consult with the others to ensure efficiencies are utilized and conflicts are avoided. Parties with legal standing should be involved in the coordination and Parties should operate in good faith.
  - d. **Cooperate/Collaborate:** Parties involved work together to achieve a common goal or objective. Cooperation or collaboration are often employed where multiple Parties have a vested interest in the outcome and may involve a shared project or policy outcome. Parties may share expertise, resources, etc. to accomplish the goal.
  - e. **Responsible:** Answerable or accountable, as for something within one's power, control, or management. There can be multiple levels or roles in responsibility. Examples of levels of responsibility include:
    - Authority: Authority to make the final decision, signature authority
    - Lead: Responsible for making sure the activity is completed and communication protocols are followed
    - Coordination: Responsible for coordinating all elements necessary to complete an activity
    - Support: Provide administrative or technical support necessary to complete an activity
    - Information: Provide input and information necessary to complete an activity
  - f. **Owner:** The agency that keeps and maintains the final product.

- g. **Lead Agency:** Agency responsible for making sure the planning project is completed and communication protocols are followed.
  - h. **Levels of communication:** Consider, Consult, Coordinate, Cooperate, or Collaborate.
  - i. **Party of interest:** A party to this Agreement that is not the lead agency for a particular planning project, but is affected by that project.
  - j. **Planning Project:** A planning activity that leads to a planning product. Planning products that may be developed may include plans, programs, tools, and administrative products such as those listed below.
2. All Parties agree to cooperatively develop and share information related to the development of financial plans that support the metropolitan transportation plan, the metropolitan TIP and the development of the annual listing of obligated projects. Such plans may include but shall not be limited to the following:
- a. Plans
    - Oregon Transportation Plan & Component Plans including Safety Plans
    - Regional Transportation Plan (RTP)
    - Transportation System Plan (TSP)
    - Area/Concept Plans
    - Facility Plans (including Corridor Plans, Interchange Area Management Plans, Access Management Plans, etc.)
    - Transit Plans
    - Coordinated Human Services-Transit Plans
  - b. Programs
    - Statewide Transportation Improvement Program (STIP)
    - Metropolitan Transportation Improvement Program (MTIP)
  - c. Tools
    - Transportation Demand Models (TDM)
    - Land Use Models
    - Integrated Models
    - Data resources
    - Geographic Information System (GIS) resources
  - d. Administrative Products
    - Air Quality Conformity
    - Unified Planning Work Program (UPWP)
    - Federal Certification
    - Public Involvement Plan
    - Title VI Plan
    - Environmental Justice Plans
    - Disadvantaged, Minority Business Enterprise Use Plans

- Environmental Impact Statements/Assessments
- State Agency Coordination Agreement

3. SKATS is specifically charged with the development of the RTP, MTIP, and UPWP. As such, SKATS will be the Product Owner and the Lead Agency for these products and other related products, such as the Air Quality Conformity Determination and most of the “Tools” and “Administrative Products” identified above. ODOT and SAMTD will provide information necessary for these products. All Parties will Cooperate and Collaborate in these processes. Formal communication will take place at the regular meetings of the SKATS Technical Advisory Committee and Policy Committee, and may be supplemented with phone calls, emails, letters, and additional meetings as desired by any of the participants. Funding of these activities will be identified in the annual UPWP. The decision making process will be in accordance with Agreement number 20523. This will be the default process used for all planning projects, unless another process is identified. Principal roles for the Parties to this Agreement for Plans and Programs identified are described in the following table.

Plan/Program	Principal Role		
	ODOT	SKATS	SAMTD
Oregon Transportation Plan and Modal Plans	Product Owner Lead Agency	Consult	Consult
Regional Transportation Plan	Coordinate	Product Owner Lead Agency	Coordinate
Transportation System Plan	Cooperate/Collaborate	Cooperate/Collaborate	Cooperate/Collaborate
Area/Concept Plans <sup>1</sup>	Product Owner Lead Agency Cooperate/Collaborate	Product Owner Lead Agency Cooperate/Collaborate	Product Owner Lead Agency Cooperate/Collaborate
Facility Plans <sup>2</sup>	Product Owner Lead Agency	Cooperate/Collaborate	Cooperate/Collaborate
Transit Plans	Coordinate	Cooperate/Collaborate	Product Owner Lead Agency
Coordinated Human Services – Transit Plans	Coordinate	Cooperate/Collaborate	Product Owner Lead Agency
Statewide Transportation Improvement Program (STIP)	Product Owner Lead Agency	Consult	Consult
Metropolitan Transportation Improvement Program (MTIP) <sup>3</sup>	Consult	Product Owner Lead Agency	Consult

4. Each time a new transportation planning project commences, the roles, responsibilities, and expectations of each Party will be written down and distributed to each participant of the project. The Parties will specify at least nine (9) items identified below; other items should be added as needed to ensure that the responsibilities and expectations of each party are clearly identified.

<sup>1</sup> Plans, other than facility plans, prepared by any of the parties

<sup>2</sup> Facility plans include, but are not limited to, interchange area management plans, expressway management plans, access management plans, or other plans that require approval by the Oregon Transportation Commission.

<sup>3</sup> Pursuant to 23 CFR 450.326, the MTIP is incorporated verbatim into the STIP (“After approval by the MPO and the Governor, the TIP shall be included without change, directly or by reference, in the STIP . . . .”)

- a. Product Owner
- b. Lead Agency
- c. Responsibilities of each agency
- d. Primary levels of communication
- e. Specific communication procedures
- f. Use of consultant services
- g. Decision process
- h. Funding, reporting responsibilities
- i. Resource sharing agreements

If the answers will vary by task, project subpart, or other conditions, the responsibilities of each agency under each condition will be specified. (Definitions set forth in this Agreement will apply). An example of such a project may be an Interchange Area Management Plan, where the lead agency would be ODOT, or a Transit Center study conducted by SAMTD. However, any of the Parties may request that the roles and responsibilities of any "Planning Project" be clarified and redefined, within the constraints of the Cooperative Agreement. SKATS may develop a form to facilitate the identification of responsibilities.

5. The questions that follow are examples of items to consider when answering the nine items identified above. Not all items may apply to a specific project, nor is this list intended to be all inclusive. Parties should use these considerations as a starting point to answer the nine items above and to evaluate what further items may need to be set forth in specific project agreements.

a. Project Parties

- What agencies will participate in the project?
- Which agency will own the product? (See Definitions)
- Which is the lead agency? (See Definitions)
- Which agency will develop the scope of work? Who will approve it?
- What level of responsibility does each agency have for each task or part of the project? (See Definitions)
- Who are the contact people?
- When are the different Parties involved?

b. Communication

- What levels of communication are appropriate for the planning project? (See Definitions)
- What procedures for communication are appropriate for the level of interaction needed? (See Definitions)
- Who from each agency needs to be informed?
- Who is responsible for implementing communication protocols?
- How will communication occur with the ACT, TAC, or other advisory committees?
- Who is responsible for coordinating communication with the public?

- Who is responsible for coordinating and joint communications with other agencies?
- c. Consultants
- Will consultants assist with the project?
  - Which agency is responsible for recruiting for and/or selecting any consultants to assist the project?
  - Who is responsible for contract administration?
  - Who is responsible for communicating with the consultants?
  - Who is responsible for reviewing and approving work?
- d. Decision process
- Which agency has decision authority for which kinds of issues?
  - Who is responsible for providing information/support for the decision? How?
  - Who has responsibility to serve on what decision-making bodies?
  - How will needs for amendments to the product be communicated and decided upon?
  - Who is responsible for completing amendments and when?
  - How will differences of opinion be handled?
- e. Funding
- What level of funding is available?
  - What types of funds are to be used?
  - What restrictions are there on use of the funds?
  - Who is responsible for authorizing funds?
  - Who is responsible for reporting use of funds and accomplishments, at what level of detail and to whom?
- f. Sharing Resources
- Who is responsible for what elements of different kinds of products?
  - When will each agency be responsible for supporting the others?
  - Is this consistent with existing agreements or adopted plans for the area?
- g. Transit
- How will the Parties cooperate with public transit operators in the area?
  - How will the public transit operators participate in the planning project?
  - Have private providers been considered?

**Resolution 19-2**

**Adopting the SKATS 2019-2020  
Unified Planning Work Program (UPWP)**

**WHEREAS**, the Salem-Keizer Area Transportation Study (SKATS) Policy Committee has been designated by the State of Oregon as the official Metropolitan Planning Organization (MPO) for the Salem Urbanized Area; and

**WHEREAS**, the SKATS Policy Committee is authorized by an intergovernmental Cooperative Agreement to act on matters pertaining to the transportation planning process; and

**WHEREAS**, the SKATS Unified Planning Work Program is produced to describe the MPO-related planning activities anticipated in the coming year and is required to secure funding for the regional transportation planning process; and

**WHEREAS**, the activities and funds programmed in the 2019-2020 UPWP have been reviewed and approved by appropriate parties and advisory committees; and

**WHEREAS**, periodic reviews of the SKATS Cooperative Planning Agreement and the SKATS Planning Agreement between ODOT, SKATS, and the Salem Area Mass Transit District (SAMTD) are also required; and

**WHEREAS**, it is SKATS policy to conduct the aforementioned reviews annually concurrently with the UPWP adoption process;

**NOW THEREFORE, BE IT RESOLVED BY THE POLICY COMMITTEE OF THE SALEM-KEIZER AREA TRANSPORTATION STUDY:**

**That the attached SKATS 2019-2020 Unified Planning Work Program (UPWP) is hereby adopted, and the Mid-Willamette Valley Council of Governments is hereby requested to prepare and submit any documents to secure the funding identified in the Planning Work Program for the SKATS (MPO) activities; and**

**That the SKATS Cooperative Agreement (*UPWP Appendix A*) and the ODOT/SKATS/SAMTD Planning Agreement (*UPWP Appendix F*) have been reviewed by the SKATS Policy Committee and are affirmed as included in the UPWP Appendices.**

**ADOPTED** by the Policy Committee of the Salem-Keizer Area Transportation Study on the 23rd day of April 2019.
