

Grant for Reimbursement of On-site Septic Damaged by the 2020 Wildfires

Grant for Reimbursement of On-site Septic Damaged by the 2020 Wildfires

This program is a collaboration between the Mid-Willamette Valley Council of Governments (MWVCOG) and the Marion County Building Inspection. Grants are available to reimburse property owners for completed work repairing or replacing residential septic systems performed due to the 2020 Beachie Creek and Lionshead Fires. Grants will be available until the total funding is allocated. Marion County is implementing the grant program with funds from the American Rescue Plan Act (ARPA) by way of Business Oregon. MWVCOG funding is provided through Oregon DEQ from ARPA.

For more information download the brochure or apply for a grant, either online via the link below, or by downloading the Application.
